Research Dept.,2012-04-17 The April 2012 issue of the World Economic

Outlook assesses the prospects for the global economy which has gradually strengthened after a major setback during 2011. The threat of a sharp global slowdown eased with improved activity in the United States and better policies in the euro area. Weak recovery will likely resume in the major advanced economies and activity will remain relatively solid in most emerging and developing economies. However, recent improvements are very fragile. Policymakers must calibrate policies to support growth in the near term and must implement fundamental changes to achieve healthy growth in the medium term. Chapter 3 examines how policies directed at real estate markets can accelerate the improvement of household balance sheets and thus support otherwise anemic consumption. Chapter 4 examines how swings in commodity prices affect commodity exporting economies, many of which have experienced a decade of good growth. With commodity prices unlikely to continue growing at the recent elevated pace, however, these economies may have to adapt their fiscal and other policies to lower potential output growth in the future.

**The World Economic Factbook**, 2007      **International Marketing** P. K. Vasudeva, 2006

With the onset of globalisation, International Marketing has become an important subject among students pursuing MBA in International Marketing and International Trade, as also among professionals who study and undertake research projects in the areas such as Foreign Direct Investment, Free Trade Area, World Trade Organisation, UNCTAD and the like. The third edition focuses on global economy and its transmission to India. The global economic condition is perhaps at its best since the World War II, mainly because of the upward trend in international relations and aggressive bilateral, multi-lateral, as well as regional treaties concerning trade and economy among various countries throughout the globe. An updated table of contents reflects the latest research findings and practices up to the year 2005. The latest edition offers new chapters on Competitive Analysis, Competitive Strategies, Technical Environment, Globalisation, International Retail Management and the World Trade Organisation (WTO) covering right up to Hong Kong Ministerial 2005. Additionally, some assorted current topics such as Performance of Foreign Trade Policy 2004-09, Export Taxes, Composition of Trade, Direction of Trade, Foreign Direct Investment, External Commercial Borrowings, Non-residential Deposits and Exchange Rate Movements have been given due place in the book. Each chapter concludes with a summary, a list of questions and case studies for ready reference. The bibliography is exhaustive, including Internet references for further studies. A must-read book for MBA International Marketing and International Trade students and researchers.
