The Hardliners:

The Order of Genocide Scott Straus, 2013-01-14 The Rwandan genocide has become a touchstone for debates about the causes of mass violence and the responsibilities of the international community Yet a number of key questions about this tragedy remain unanswered How did the violence spread from community to community and so rapidly engulf the nation Why did individuals make decisions that led them to take up machetes against their neighbors And what was the logic that drove the campaign of extermination According to Scott Straus a social scientist and former journalist in East Africa for several years who received a Pulitzer Prize nomination for his reporting for the Houston Chronicle many of the widely held beliefs about the causes and course of genocide in Rwanda are incomplete They focus largely on the actions of the ruling elite or the inaction of the international community Considerably less is known about how and why elite decisions became widespread exterminatory violence Challenging the prevailing wisdom Straus provides substantial new evidence about local patterns of violence using original research including the most comprehensive surveys yet undertaken among convicted perpetrators to assess competing theories about the causes and dynamics of the genocide Current interpretations stress three main causes for the genocide ethnic identity ideology and mass media indoctrination in particular the influence of hate radio Straus's research does not deny the importance of ethnicity but he finds that it operated more as a background condition Instead Straus emphasizes fear and intra ethnic intimidation as the primary drivers of the violence A defensive civil war and the assassination of a president created a feeling of acute insecurity Rwanda's unusually effective state was also central as was the country's geography and population density which limited the number of exit options for both victims and perpetrators In conclusion Straus steps back from the particulars of the Rwandan genocide to offer a new dynamic model for understanding other instances of genocide in recent history the Holocaust Armenia Cambodia the Balkans and assessing the future likelihood of such events

The Fall Steven Saxonberg, 2017-07-05 With a foreword by Seymour Lipset Hoover Institution and George Mason University USA The Fall examines one of the twentieth century's great historical puzzles why did the communist led regimes in Eastern Europe collapse so quickly and why was the process of collapse so different from country to country This major study explains why the impetus for change in Poland and Hungary came from the regimes themselves while in Czechoslovakia and East Germany it was mass movements which led to the downfall of the regimes

[The Struggle to Define God](#) Robert A. Butterfield, 2017-04-19 This book about religious struggle studies four texts from postexilic Judah and applies them first to Judah and then importantly to modern America Two of these texts the books of Jonah and Job speak out in favor of the theology of grace and against the theology of retribution as advocated by the Jerusalem hardliners This struggle to define God continues even today Despite the biblical evidence especially the example of Jesus many Americans still believe in the God of retribution Two other texts the book of Ruth and the story of Rahab demonstrate that if people reject xenophobia nativism and misogyny the entire community is blessed Since xenophobia nativism and misogyny are

rampant in modern America this message is rather timely The last chapter argues that it is the mission of both synagogues and churches to define God correctly and then to help people overcome their resentment and prejudices and become partners with God but that many predominantly white churches have failed in their mission as evidenced by the fact that so many of their members voted for Donald Trump

Selling Intervention and War Jon Western, 2005-06-07 *Selling Intervention and War* examines the competition among foreign policy elites in the executive branch and Congress in winning the hearts and minds of the American public for military intervention The book studies how the president and his supporters organize campaigns for public support for military action According to Jon Western the outcome depends upon information and propaganda advantages media support or opposition the degree of cohesion within the executive branch and the duration of the crisis Also important is whether the American public believes that military threat is credible and victory plausible Not all such campaigns to win public support are successful in some instances foreign policy elites and the president and his advisors have to back off Western uses several modern conflicts including the current one in Iraq as case studies to illustrate the methods involved in selling intervention and war to the American public the decision not to intervene in French Indochina in 1954 the choice to go into Lebanon in 1958 and the more recent military actions in Grenada Somalia Bosnia and Iraq *Selling Intervention and War* is essential reading for scholars and students of U S foreign policy international security the military and foreign policy and international conflict

[The Weekly Review](#) ,1999 [Principles Of International Politics: People's Power, Preferences, and Perceptions, 3rd Edition](#) Bruce Bueno De Mesquita, 2006 Leaders want to stay in power Their self interest is the decisive motivation for action in the international arena and forms the theoretical backbone for this exciting departure from other introductory international relations texts Through its discussion and development of the strategic perspective *Principles of International Politics* shows students how leaders translate their personal interests and ambitions into actions of the state and convincingly demonstrates how international and domestic politics are inextricably linked Clearly explaining both the foundational ideas of international relations as well as the key concepts of the strategic perspective Bueno de Mesquita effectively links these to the analytic tools students will employ throughout

Joyner, 1990-08-21 This collection of essays surveys the state of the Persian Gulf in the wake of the Iran Iraq War It places the political security and diplomatic dimensions of the war into perspective serving as a guide for reassessing those factors that affected the conflict s outcome and that will continue to influence developments in the region

Church People Beware! William J. Carl, William J. Carl, III, 1992 I know it s not easy to believe in miracles in our time The problem with them is not that they don t happen The problem is that they do The question is do we have faith enough to see them and experience them and God s presence in our lives Only you can answer

that question for yourself from the sermon *The Problem With Miracles In Our Time* The ten sermons in this book are based on Gospel texts from Matthew Homilies follow the Roman Catholic Revised Common and Lutheran lectionaries These are tough texts which lead in some cases to tough messages writes Carl But since Jesus rarely pulled any punches neither should we Jesus challenged us with the greatest cautions and warnings since through us the people of God learn who God is William J Carl III Dallas Texas has served as associate professor of homiletics and worship instructor of New Testament Greek at Union Theological Seminary Virginia Some Techniques and Systems Lance Dobson,1975 **Burma File** Soe Myint,2004 Author s news reports on political history of Burma since 1988 *Preventing War in Macedonia* Mark Laity,2008 In 2001 in the aftermath of the war in Kosovo the stability of the Balkans was once again threatened by flaring ethnic tensions in the former Yugoslav Republic of Macedonia But civil war was averted In this Whitehall Paper Mark Laity gives the first detailed insider s account of the NATO led international effort that prevented war in Macedonia Writing from experience as Special Adviser to the NATO Secretary General and personal adviser to the Macedonian President he offers a unique and incisive account of Operation Essential Harvest and the actions that made it possible This rare and mostly overlooked example of successful pre-emptive diplomacy has enduring lessons on conflict resolution and peacebuilding in the 21st Century RUSI *Latin America Report* ,1982 Social Science Journal ,1994 **Korean Social Science Journal** ,1995
