Production Research 1993 V. Orpana, A. Lukka, 1993 Research into industrial production is a varied and far reaching activity and cannot be said to be the province of any one particular science Industrial production research is a subject which cannot be covered in any one or even several branches of study expertise in other fields of science is also needed for this research The guiding principle on which industrial production is based is to manufacture marketable quality products using the factors of production as economically as possible Only in this way can profitability be assured and future
