## **Social Perception:**

**Social Perception** Leslie A. Zebrowitz, 1990 This book argues that the mainstream approach to social perception is a cognitive one which focuses primarily on the processes of perceiving people It aims to redress the imbalance by giving greater emphasis to the content of social perceptions the stimulus information on which they are based and the functions which they serve

**Social Perception and Social Reality** Lee Jussim, 2012-04-06 Social Perception and Social Reality contests the received wisdom in the field of social psychology that suggests that social perception and judgment are generally flawed biased and powerfully self fulfilling Jussim reviews a wealth of real world survey and experimental data collected over the last century to show that in fact social psychological research consistently demonstrates that biases and self fulfilling prophecies are generally weak fragile and fleeting Furthermore research in the social sciences has shown stereotypes to be accurate Jussim overturns the received wisdom concerning social perception in several ways He critically reviews studies that are highly cited darlings of the bias conclusion and shows how these studies demonstrate far more accuracy than bias or are not replicable in subsequent research Studies of equal or higher quality which have been replicated consistently are shown to demonstrate high accuracy low bias or both The book is peppered with discussions suggesting that theoretical and political blinders have led to an odd state of affairs in which the flawed or misinterpreted bias studies receive a great deal of attention while stronger and more replicable accuracy studies receive relatively little attention In addition the author presents both personal and real world examples such as stock market prices sporting events and political elections that routinely undermine heavy handed emphases on error and bias but are generally indicative of high levels of rationality and accuracy He fully embraces scientific data even when that data yields unpopular conclusions or contests prevailing conventions or the received wisdom in psychology in other social sciences and in broader society

**The Social Psychology of Perceiving Others Accurately** Judith A. Hall, Marianne Schmid Mast, Tessa V. West, 2016-04 This comprehensive overview presents cutting edge research on the fast expanding field of interpersonal perception

**Social Perception and Social Reality** Lee Jussim, 2012-04-06 This title contests the received wisdom in the field of social psychology that suggests that social perception and judgment are generally flawed biased and powerfully self fulfilling

*Social Perception from Individuals to Groups* Steven J. Stroessner, Jeffrey W. Sherman, 2015-02-11 This volume focuses on social perception the processing of information about people This issue has always been central to social psychology but this book brings together literatures that in large part have been separated by the nature of the social target that is involved Historically research on person perception developed quite independently from research involving perceptions of groups Whereas the former research generally focused on the cognitive processes involved in forming impressions of individuals research on group perception examined the content of stereotypes and the conditions under which they are used in social judgment There was been little overlap in the theories and methods of these subfields and different researchers were central in each The chapters

in this book highlight research and theorizing about social perception exploring the processes involved in social perception from persons to groups Some chapters describe work that was originally developed in person perception but is being extended to understanding groups Other chapters illustrate how some processes studied in the domain of stereotyping also affect perceptions of individual persons Finally other chapters focus on variables that affect perceptions and judgments of both individuals and groups providing opportunities for greater recognition of the common set of factors that are central to all types of social perception This groundbreaking book highlights the research contributions of David L Hamilton whose research has played a central role in uniting these previously independent areas of research It provides essential reading for upper level courses on social cognition or social perception and could also serve as an auxiliary text in courses on interpersonal perception relations and courses on stereotyping intergroup relations

**New Research on Social Perception** John A. Zebrowski, 2007 The contemporary concept of social perception is considered to be an umbrella term that includes various other traditional and related phenomena such as person perception impression and attitude formation social cognition attribution stereotypes prejudice social categorisation and social comparison and implicit personality theories This book presents research on social perspectives and behavioural responses which follow These include child perceptions social class issues perceived attractiveness theories occupational prestige and related communication factors

**Social Perception** Ilona Roth, 1976 Motivated Social Perception Steven J. Spencer, Steven Fein, Mark P. Zanna, James M. Olson, 2003-01-30 The 9th book in the Ontario Symposium series It highlights research on motivated social perception The targeted market includes scholars researchers and advanced students interested in social perception

*Social Perception* M.D. Rutherford, Valerie A. Kuhlmeier, 2013-08-30 An interdisciplinary exploration of perceptual and cognitive processes underlying the ability to perceive social information drawing on current research and new experimental techniques As we enter a room full of people we instantly have a number of social perceptions We have an automatic perception of others as subjective agents with their own points of view thoughts and goals and we can quickly interpret minimal visual information to infer that something is animate This book explores the perceptual and cognitive processes that allow humans to perceive and understand this social information quickly and apparently effortlessly Top researchers in fields ranging from developmental psychology to vision science consider the perception of biological and animate motion inferences based on this motion and the early development of these abilities These innovative contributions reflect a recent renewal of interest in the attribution of agency and the understanding of goal directed behavior which has been accompanied by a rapid increase in empirical discoveries enabled by such new experimental techniques as brain imaging The research presented in *Social Perception* suggests that an intuitive understanding of others is an integral part of human psychology develops early relies on a network of brain regions and may be compromised in autism Contributors Dare Baldwin Lara Bardi H Clark Barrett Erin Cannon You jung Choi Willem E Frankenhuus Tao Gao Emily D Grossman Antonia Hamilton Petra Hauf Valerie A Kuhlmeier Jeff Loucks Scott A Love Yuyan Luo Elena Mascialzoni Phil McAleer Richard Ramsey Lucia Regolin M D Rutherford Kara Sage Brian J Scholl Maggie Shiffrar Francesca Simion Jessica Sommerville James P Thomas Nikolaus Troje Amanda Woodward
