**Remaking the Labour Party** Tudor Jones, 2005-09-21 *Remaking the Labour Party* examines the development of revisionist thought in the Labour Party from the 1950s up to Tony Blair s successful attempt to rewrite Clause Four in April 1995 The main focus is upon the most distinctive and controversial aspect of Labour revisionism its attitude toward public ownership and socialism private ownership and the mixed economy *Remaking the Labour Party* comprises a detailed study of a process of ideological conflict which began with the Labour Party s debate in the 1950s over the link between public ownership and socialism The deepening confrontation that arose from the revisionist thinking of Crosland and Gaitskell is explored in the Clause Four controversy of 1959 60 and in the uneasy compromise forged in its aftermath The period of ideological truce under Harold Wilson s leadership is examined together with the bitter conflict that later resurfaced in the party during the 1970s and early 80s Finally the study focuses on the second stage of Labour s policy and ideological rethinking which developed after 1983 under the leadership first of Neil Kinnock and then of Tony Blair Drawing on the author s own interviews with some of the leading protagonists of the debate as well as upon a wide range of primary and secondary sources *Remaking the Labour Party* will be of value to students of modern British politics and political thought it will also be of interest to observers and members of the Labour Party

**Fascism, Anti-Fascism, and the Resistance in Italy** Stanislao G. Pugliese, 2004-01-13 While the historical significance of fascism and anti fascism is still being hotly debated in Europe and around the world this anthology offers a new look at the many faces of repression and resistance Stanislao G Pugliese brings together a wide range of voices that illuminate more than eighty years of fascism and anti fascism in Italy Many of the pieces including letters from women to Mussolini and anti fascist graffiti from a Nazi prison in Rome are available in English for the first time The selections include historical documents political analysis stories songs and memoirs from a variety of perspectives Taken together the documents provide a compelling account of the political historical economic and social

impact of fascism and the resistance Touching on fields as far ranging as political science history women s studies and religion Fascism Anti Fascism and the Resistance in Italy is immediate human and eminently readable Charisma and Fascism Antonio Costa Pinto,Roger Eatwell,Stein Ugelvik Larsen,2014-02-25 Fascism remains a topic that fascinates both academic and general audiences This is the first book to look systematically at the leaders of fascism and related movements in the inter war era It shows how fascist leaders came to personify their movements and why the Führerprinzip was applied in all fascist organizations It also explains how fascist leadership was of a very particular kind It was almost unlimited in political discipline and required complete subordination The legitimacy was based on a very vague notion of the organic unity of the state and the people giving the leaders competence to rule without accountability to a party organization or state bodies Thus we can observe in all fascist parties movements a practical form of leadership where policies of split and rule were common in absence of principles of representation and opposition feedbacks The fascist Führer was the leader the party the ideology and when in power the state itself This book was previously published as a special issue of Totalitarian Movements and Political Religions *BLACK SUN - the Mythological Background of National Socialism* Ian Tinny,Thurston Howell III,American Psychopath Association,Rex Curry, BLACK SUN sheds new light on the sources of Nazi ideology by examining its occult roots in the world of myths symbols and fantasies It traces this development from the writings of various mystics in the early 20th century who propagated the mythology of a superior global ideology whose heroes would fight the forces of moral decadence and greed The book uses rare archival photographs and sources to chronicle how the Nazis used these mythological foundations to develop Nazism as a political religion While BLACK SUN documents the nationalist mystical beliefs that infused National Socialism the book also reveals the disturbing perpetuation of these beliefs among certain political groups today in Germany and worldwide reflecting an ongoing search for salvation inspiration and messianic leaders This eye popping expose juxtaposes the polarization in German national history between an obsession with capturing light in all its symbolic uses in order to battle the darkness of the Others The final lesson that Black Sun implies and what makes it a provocative and interesting book for a number of audiences whether scholars and students of history or iconography is the danger of not knowing one s own history In this sense the title signals not only the recurrent theme of evil throughout history but also the need to shed light upon all its manifestations **The Socialist Review** ,1913 **The Struggle for Modernity** Emilio Gentile,2003-11-30 During the 20th century Italy experienced some regrettable political developments It was the first European nation after World War I in which a mass militia party of revolutionary nationalism achieved power and abolished parliamentary democracy with the goal of building a totalitarian state It was also the first in Europe to institutionalize the sacralization of politics and to celebrate officially the cult of the leader as a demi God These achievements were not accidents Since the beginning of the 20th century Italian nationalist movements from the national radicalism of La Voce to futurist nationalism and fascism fostered one of the strongest waves of European right wing

radicalism The confrontation between nationalism and modernity is one of the main keys to understanding the permutations of Italian radical nationalism from modernist avant gardes up to the fascist regime This book analyzes the ideological undercurrents and cultural myths that unite all these movements Looking at Italian nationalism from its risorgimento roots to the neo fascist heritage Gentile considers the relationship between myth and organization in the making of the fascist state the role of the party the liturgy of mass politics in Italy the fascist organizations abroad and the attitude of fascist culture toward the United States [The Intercollegiate Socialist](#), 1913 **Debunking Utopia** Nima Sanandaji, 2021-02-23 Left leaning academics liberal pop stars such as Bruce Springsteen and Democrat politicians from Bernie Sanders to Bill and Hillary Clinton to Barack Obama all have one thing in common they are avid admirers of Nordic style social democracy The reason is simple At first glance Nordic countries seem to have everything liberals want to see in America equal income distribution good health low levels of poverty and thriving economies all co existing with big welfare states By copying Nordic policies many in the American left hope to transform America to a similar socialist utopia In **Debunking Utopia** Swedish author Nima Sanandaji explains why this is all wishful thinking Certainly some aspects of Nordic welfare states such as childcare provision merit the admiration of liberals But overall it is a unique culture based on hard work healthy diets social cohesion and high levels of trust that have made Nordic countries successful Sanandaji explains how the Nordic people adopted this culture of success in order to survive in the unforgiving Scandinavian climate He systematically proves that the high levels of income equality high lifespans and other signs of social success in the Nordics all predate the expansion of the welfare state If anything the Nordic countries reached their peak during the mid twentieth century when they had low taxes and small welfare states Perhaps most astonishing are his findings that Nordic Americans consistently outperform their cousins who live across the ocean People of Nordic descent who live under the American capitalist system not only enjoy higher levels of income but also a lower level of poverty than the citizens of the Nordic countries themselves Sanandaji s previous writings on the roots of Nordic success have gained media attention around the world and been translated into many languages **Debunking Utopia** which expands on this work should be read by all liberals and conservatives alike who follow the debate over the future of American welfare As Sanandaji shows there is much Americans can learn from both the successes and failures of Nordic style social democracy **The Socialist Revolution** Richard Vetterli, William Edwards Fort (Jr.), 1968 **The International Socialist Review** Algie Martin Simons, Charles H.
