Societal Issues Scientific Viewpoints:

Social Issues in Living Color Arthur W. Blume, 2017-02-16 Offering fresh and exciting approaches to solving global problems this book creatively views challenging social issues through the lens of racial and ethnic psychology As the demographic makeup of the American population continues to evolve understanding and addressing the psychological needs of ethnic minorities in the United States becomes more important to the overall health and well being of society This three volume set is the first publication to explicitly tackle social issues from the perspective of racial and ethnic psychology It uniquely presents racial and ethnic psychological perspectives on topics such as media criminal justice racism climate change gender bias and health and mental health disparities Volume one introduces readers to the basic scientific concepts of racial and ethnic minority psychology and then examines the intersectionality of race ethnicity gender and sexual orientation It also addresses how race and ethnicity affect communication styles leadership styles and media The second volume discusses the experiences of individuals within racial and ethnic minorities including overt racism covert racism and colonialism and addresses how ethnic minority psychology plays a role in our educational system poverty global climate change and sustainability The third volume covers ethics in health and research considers the causes of health and mental health disparities and identifies diversity initiatives that can improve the health and well being of all citizens not just racial and ethnic minority citizens

International Handbook of Research on Multicultural Science Education Mary M. Atwater, 2022-06-30 This handbook gathers in one volume the major research and scholarship related to multicultural science education that has developed since the field was named and established by Atwater in 1993 Culture is defined in this handbook as an integrated pattern of shared values beliefs languages worldviews behaviors artifacts knowledge and social and political relationships of a group of people in a particular place or time that the people use to understand or make meaning of their world each other and other groups of people and to transmit these to succeeding generations The research studies include both different kinds of qualitative and quantitative studies The chapters in this volume reflect differing ideas about culture and its impact on science learning and teaching in different K 14 contexts and policy issues Research findings about groups that are underrepresented in STEM in the United States and in other countries related to language issues and indigenous knowledge are included in this volume
