Teaching Creatively Byron G. Massialas, Jack Zevin, 1983      Handbook of Research on Creative Problem-Solving Skill Development in Higher Education Zhou, Chunfang, 2016-09-21 Developing students creative problem solving skills is paramount to today's teachers due to the exponentially growing demand for cognitive plasticity and critical thinking in the workforce. In today's knowledge economy workers must be able to participate in creative dialogue and complex problem solving. This has prompted institutions of higher education to implement new pedagogical methods such as problem based and case based education. The Handbook of Research on Creative Problem Solving Skill Development in Higher Education is an essential comprehensive collection of the newest research in higher education creativity problem solving and pedagogical design. It provides the framework for further research opportunities in these dynamic necessary fields. Featuring work regarding problem oriented curriculum and its applications and challenges this book is essential for policy makers teachers researchers administrators students of education      Creativity: A Handbook For Teachers Ai-girl Tan, 2007-05-24 Creativity A Handbook for Teachers covers topics related to creativity research development theories and practices. It serves as a reference for academics teacher educators teachers and scientists to stimulate further dialogue on ways to enhance creativity      *The Creative Enterprise of Mathematics Teaching Research* Bronislaw Czarnocha, William Baker, Olen Dias, Vrunda Prabhu, 2016-07-28 The Creative Enterprise of Mathematics Teaching Research presents the results and methodology of work of the teaching research community of practice of the Bronx TR Team of the Bronx. It has a twofold aim of impacting both teachers of Mathematics and researchers in Mathematics Education. This volume can be used by teachers of mathematics who want to use research to reflect upon and to improve their teaching craft as well as by researchers who are interested in uncovering riches of classroom learning teaching for research investigations. This book represents the results of a collaboration of instructors discussing their own instruction research analyzed through a conceptual framework obtained via the synthesis of creativity research and educational learning theories based upon the work of Piaget and Vygotsky. The editors see an urgent need for creative synthesis of research and teaching an example of which is presented in the book. Two central themes of the book are the methodology of TR NYCity model and creativity more precisely creativity of the Aha moment formulated by Arthur Koestler 1964 in a very profound but little known theory of bisociation exposed in his work The Act of Creation. Incorporation of the theory of bisociation into classroom teaching of mathematics provides the key to enable students who may struggle with mathematics to engage their own creativity become involved in their learning process and thus reach their full potential of excellence. Creativity in teaching remedial mathematics is teaching gifted students how to access their own giftedness      **Creative and Collaborative Learning through Immersion** Anna Hui, Christian Wagner, 2021-08-10 This book includes instructional design and practice of how immersive technology is integrated in discipline based and interdisciplinary curriculum design.
