Teaching Developmentally Disabled Children , 1981-01-01      **Authoring Autism** M. Remi Yergeau, 2018-01-05 In *Authoring Autism* M Remi Yergeau defines neurodivergence as an identity neuroqueerness rather than an impairment Using a queer theory framework Yergeau notes the stereotypes that deny autistic people their humanity and the chance to define themselves while also challenging cognitive studies scholarship and its reification of the neurological passivity of autistics They also critique early intensive behavioral interventions which have much in common with gay conversion therapy and questions the ableist privileging of intentionality and diplomacy in rhetorical traditions Using storying as their method they present an alternative view of autistic rhetoricity by foregrounding the cunning rhetorical abilities of autistics and by framing autism as a narrative condition wherein autistics are the best equipped people to define their experience Contending that autism represents a queer way of being that simultaneously embraces and rejects the rhetorical Yergeau shows how autistic people queer the lines of rhetoric humanity and agency In so doing they demonstrate how an autistic rhetoric requires the reconceptualization of rhetoric s very essence      Prevention: What Works with Children and Adolescents?
