How to Teach Religion George Herbert Betts, 2021-01-18 **How to Teach Religion** George Betts, 2016-05-16 By far the best book we have as yet on how to teach the child religion until he is of age to follow the way of Christ as a thing of course The Outlook How not to teach religion in the Sunday school and the home as well as to teach it is here set forth in many impressive contrasts The great objective of wise teaching is the child to awaken his spiritual nature and touch the springs of his emotional response to the heavenly Father How to cultivate a religious attitude religious ideals loyalties habits and the sense of responsibility for others how to organize the mass of material for all this in the Bible in nature history and great biographies how to make truth vivid with teaching that sticks in memory how to protect children from intellectual difficulties are all well answered by a master in Israel Professor Betts has given us by far the best book we have as yet on how to teach the child religion until he is of age to follow the way of Christ as a thing of course The Outlook Principles and methods are stated with conciseness and clearness and with a kind of illustration that causes them to throb with life The book will prove an inspiration and practical help to every teacher who will read it and put its teaching into practice The Christian Advocate Treats the content of religion as identical with that of ethics and indicates how this material may be used effectively in classroom work The Dial Of great worth One thing is impressed upon the teacher at once the supremacy of religion Next comes the stern demand that the teacher should himself and for himself set religion first Seek ye first the kingdom of God and his righteousness Then follow the rules and methods so easily learned then and so easily taught The Expository Times Frequently claims are made for books which when reviewed are found wanting Not so with this book which deals in a concrete and practical way with the underlying principle of religious instruction The volume is intended as a textbook for teacher training classes students of religious education and we are confident that many ministers will find it most suggestive and helpful Homiletic Review CONTENTS The Teacher Himself The Great Objective The Fourfold Foundation Religious Knowledge of Most Worth Religious Attitudes to be Cultivated Connecting Religious Instruction With Life and Conduct The Subject Matter of Religious Education The Organization of Material The Technique of Teaching Making Truth Vivid Types Of Teaching Methods Used in the Recitation *The Teaching of Religion* Paul Edward Kretzmann, 1925

How to Teach Religion George Herbert Betts,1928

How Teachers in Europe Teach

Religion Hans-Georg Ziebertz,Ulrich Riegel,2009 In 2007 around 3500 teachers in 16 European countries participated in a cross cultural study of existing teaching procedures in religion and theology This text shows the results which present different approaches strategies and ways of thinking when it comes to teaching religion in a multicultural context

Teaching Religion, Teaching Truth Jeff Astley,2012 Religious educators today are called upon to enable young people to develop as fully rounded human beings in a multicultural and multifaith world It is no longer sufficient to teach about the history of religions religion is not relegated to the past It is no longer sufficient to teach about the observable outward phenomena of religions religion is not restricted to practices artefacts and buildings observable in the outside world It is also necessary to take seriously what religions believe about themselves and what religions believe about other religions Seen from the inside religions deal in the currency of truth For the religions themselves truth matters Truth claims can lead to harmony and peace but they may also engender discord and violence What ultimately counts is how one set of truth claims confronts or embraces the truths claimed by other different voices Therefore those who teach religion cannot avoid dealing with the theology of religions In this collection of original essays religious educators shaped by both Christian and Islamic worldviews discuss the problems and opportunities that now face educators and believers alike as they are confronted by the challenge of teaching religion and teaching truth The discussion nurtured at the sixteenth conference of the International Seminar on Religious Education and Values is here developed further to stimulate wider reflection and shape good local practice

Faith Ed Linda K. Wertheimer,2015-08-18 An intimate cross country look at the new debate over religion in the public schools A suburban Boston school unwittingly started a firestorm of controversy over a sixth grade field trip The class was visiting a mosque to learn about world religions when a handful of boys unnoticed by their teachers joined the line of worshippers and acted out the motions of the Muslim call to prayer A video of the prayer went viral with the title Wellesley Massachusetts Public School Students Learn to Pray to Allah Charges flew that the school exposed the children to Muslims who intended to convert American schoolchildren Wellesley school officials defended the course but also acknowledged the delicate dance teachers must perform when dealing with religion in the classroom Courts long ago banned public school teachers from preaching of any kind But the question remains How much should schools teach about the world s religions Answering that question in recent decades has pitted schools against their communities Veteran education journalist Linda K Wertheimer spent months with that class and traveled to other communities around the nation listening to voices on all sides of the controversy including those of clergy teachers children and parents who are Muslim Jewish Christian Sikh or atheist In Lumberton Texas nearly a hundred people filled a school board meeting to protest a teacher s dress up exercise that allowed freshman girls to try on a burka as part of a lesson on Islam In Wichita Kansas a Messianic Jewish family s opposition to a bulletin board display about Islam in an elementary school led to such upheaval that the school had to hire extra security

Across the country parents have requested that their children be excused from lessons on Hinduism and Judaism out of fear they will shy away from their own faiths. But in Modesto a city in the heart of California's Bible Belt teachers have avoided problems since 2000 when the school system began requiring all high school freshmen to take a world religions course. Students receive comprehensive lessons on the three major world religions as well as on Sikhism, Hinduism, Buddhism, and often Shintoism, Taoism, and Confucianism. One Pentecostal Christian girl terrified by idols including a six-inch gold Buddha learned to be comfortable with other students' beliefs. Wertheimer's fascinating investigation, which includes a return to her rural Ohio school which once ran weekly Christian Bible classes, reveals a public education system struggling to find the right path forward and offers a promising roadmap for raising a new generation of religiously literate Americans.

Theology and the University David Ray Griffin, Joseph C. Hough Jr., 1991-03-21 This book explores the relationship between theology and the modern university. Most of the essays were written specifically for this volume and all of them are published here for the first time. David Ray Griffin, Gordon Kaufman, Hans Kng Schubert, Ogden, and Wolfhart Pannenberg.

address the question of whether theology belongs in the university at all Essays by Joseph Hough Catherine Keller and Marjorie Suchoki argue that theology has a vital role in helping the university recover its central mission that of educating for the sake of the common good Thomas Altizer William Beardslee and Jack Verheyden provide historical analyses of the interactions between theology and the university with Altizer focusing on the modern divorce between faith and reason Beardslee on the relevance of the renewed emphasis upon rhetoric and Verheyden on the ideal of knowledge As a whole Theology and the University presents an impressive case against the position that theology is inappropriate in the university It argues not only that theology has a rightful place in the university but also that the university needs theology just as theology needs the university

International Journal of Religious Education ,1926 [Critical Perspectives on Christian Education](#) Jeff Astley,Leslie J. Francis,1994 *Teaching Religion in School* Jean Holm,1984 [International Handbook of Inter-religious Education](#) Kath Engebretson,Marian de Souza,Gloria Durka,Liam Gearon,2010-08-17 This Handbook is based on the conviction of its editors and contributing authors that understanding and acceptance of as well as collaboration between religions has essential educational value The development of this Handbook rests on the f ther assumption that interreligious education has an important role in elucidating the global demand for human rights justice and peace Interreligious education reveals that the creeds and holy

books of the world's religions teach about spiritual systems that reject violence and the individualistic pursuit of economic and political gain and call their followers to compassion for every human being. It also seeks to lead students to an awareness that the followers of religions across the world need to be and to grow in dialogical relationships of respect and understanding. An essential aim of interreligious education is the promotion of understanding and engagement between people of different religions and therefore it has great potential to contribute to the common good of the global community. Interreligious education has grown from the interfaith movement whose beginning is usually identified with the World Parliament of Religions held in Chicago in 1893. This was the first time in history that leaders of the eastern and western religions had come together for dialogue and to consider working together for global unity.
