Pieter Spierenburg

The Prison Experience:

The Prison Experience Merry Morash, Pamela J. Schram, 2002-12-02 Confined to an institution and further burdened by patriarchal assumptions and stereotypes incarcerated women struggle to retain a sense of self worth for themselves and often for their children Scholarship on the subject typically has either ignored or trivialized the role of gender as an organizing feature of society The result is a lack of emphasis on the role played by gender in the lives of women in a correctional setting In this theoretically informed and empirically grounded textbook Morash and Schram explain the realities of prison life for women from a feminist perspective The hope for reform begins with an informed public so that a system premised on deterrence and punishment can also offer opportunities for rehabilitation **The Prison Experience**

Pieter Spierenburg, 2007-01-01 Though the prison is central to the penal system of most modern nations many believe that imprisonment did not become a major judicial sanction until the nineteenth century In this readable history Pieter Spierenburg traces the evolution of the prison during the early modern period and illustrates the important role it has played as both disciplinary institution and penal option from the late sixteenth century onward Placing particular emphasis on the prisons of the Netherlands Germany and France *The Prison Experience* examines not only the long term nature of prisons and the historical conceptions of their prisoners but also looks at the daily lives of inmates supplementing our understanding of social change and day to day life in early modern Europe **Masculinities and the Adult Male Prison Experience**

Jennifer Anne Sloan, 2016-05-18 This book critically analyses how men in prison act out their masculine identities It considers how men negotiate their time in prison which can involve being placed into a feminine position relative to other men and particularly looks at the subversion of heteronormative gender positionings through bodies spaces time and relationships Vulnerability is also taken as a key consideration and men are shown to act out their masculinities for the benefit of an audience that matters to them However that audience is shown to be subject to change at any point in time Using extensive ethnographic data drawn from adult male prisoners the book adopts the viewpoint of the individual prisoner as a frame to consider masculinity It also advances ethnographic research in criminology by reflecting upon the identity of researchers in prisons particularly the female researcher's gendered identity in such environments It will be of great interest to scholars of penology gender and ethnography *A fragment of the prison experiences of Emma Goldman and Alexander Berkman*
