

Social Experimentation

- Engineering:
 - Is a risky activity which has the potential to present some danger!
 - Can be regarded as an experiment not conducted under lab controls
 - Is based on uncertainties and assumptions with unknown outcomes
- Must learn from past mistakes and monitor over long periods of time
- If possible, safe exits **MUST** be provided when human life is at risk
- Public **MUST** be informed of any risk → respect for life

“Engineers who accept engineering as a social experiment will find that they cannot divorce themselves from the personal responsibility for their work.”

Social Experimentation

SA Adler

Social Experimentation:

Thank you for downloading **Social Experimentation**. As you may know, people have look hundreds times for their chosen books like this Social Experimentation, but end up in infectious downloads.
