# Technical Knowledge And Development

**Charles Allen Prosser, Charles R. Allen**

## **Technical Knowledge And Development:**

*The Uses of Indigenous Technical Knowledge in Development* Michael Howes, 2000      **Technical Knowledge and Development** Thomas Grammig, 2002      *Gender, Power and Knowledge for Development* Lata Narayanaswamy, 2016-12-08

Knowledge for development is under theorised and under researched within development studies but as a set of policy objectives it is thriving within development practice Donors and other agencies are striving to improve the flow of information within and between decision makers and so called poor and marginalized groups in order to promote economic and social development including the empowerment of women Gender Power and Knowledge for Development questions the assumptions and practice of the knowledge for development industry Using a qualitative multi site ethnographical study of a Northern based gender information service and its beneficiaries in India the book queries the utility of the knowledge paradigm itself and the underlying assumption that a knowledge deficit exists in the Global South It questions the value of practices designed to address this presumed deficit that seek to increase information without addressing the specific problems of the knowledge systems being targeted for support After reviewing the evidence the book recommends that international organisations governments and practitioners move away from the belief that information intermediaries can employ progressive correctives to tinker at the edges and thus resolve the shortcomings of on going attempts to use knowledge alone as a driver of development Gender Power and Knowledge for Development will be of great interest to researchers students in development studies gender studies and communication studies as well as INGOs donor agencies and groups engaged in information for development i4D ICT for development ICT4D Tech4Dev knowledge mobilization and knowledge for development K4D

**Analyzing Best Practices in Technology Education** Marc J. de Vries, Rod Custer, John Dakers, Gene Martin, 2007-01-01 Inspired by a similar book in science education the editors of this volume have put together a book with a practice oriented approach towards technology education research Teachers accounts of successful classroom activities are used as the basis for reflection on what determines good technology education practice Part I has eight stories told by teachers Topics range from puppet making to electronics and biotechnology The teachers were nominated by academic technology education experts Part II has eleven essays by such experts in which they identify those elements in the teachers accounts that they consider to be justifications for calling that practice good Focuses in these essays are technological literacy ethics culture design stakeholders attitudes motivation teaching approaches social aspects differentiation and assessment For technology education the first book that is based on reflection on successful practice as an approach for developing research insights for this curricular domain

**Advances in Computer Science, Environment, Ecoinformatics, and Education, Part III** Sally Lin, Xiong Huang, 2011-08-09 This 5 volume set CCIS 214 CCIS 218 constitutes the refereed proceedings of the International Conference on Computer Science Environment Ecoinformatics and Education CSEE 2011 held in Wuhan China in July 2011 The 525 revised full papers presented in the five

volumes were carefully reviewed and selected from numerous submissions The papers are organized in topical sections on information security intelligent information neural networks digital library algorithms automation artificial intelligence bioinformatics computer networks computational system computer vision computer modelling and simulation control databases data mining e learning e commerce e business image processing information systems knowledge management and knowledge discovering multimedia and its application management and information system mobile computing natural computing and computational intelligence open and innovative education pattern recognition parallel and computing robotics wireless network web application other topics connecting with computer environment and ecoinformatics modeling and simulation environment restoration environment and energy information and its influence on environment computer and ecoinformatics biotechnology and biofuel as well as biosensors and bioreactor

*Professional Development and Career Planning* Richard H. McCuen, 2025-03-20 Undergraduate students in almost all disciplines experience curricula dominated by technical foundations but lacking many of the soft topics that the students will need in order to be fully prepared to practice professionally after graduation *Professional Development and Career Planning Guidance for STEM Careers* provides the information that will enable readers to develop a more complete education and ready them for the workplace It helps readers recognize the importance of topics such as mentoring developing professional attitudes communication skills codes of conduct ethics becoming knowledgeable about various aspects of professional life and more Each chapter of the book provides the necessary definitions hypothetical but relevant case studies methods and practices that can be used to identify relevant professional weaknesses and ways to overcome each of them This book serves as an ideal reference for any undergraduate student in the STEM field Helps readers recognize the importance of topics such as mentoring developing important professional attitudes and becoming knowledgeable about aspects of professional life that are not an integral part of the technical component of any curriculum Identifies the attitudes abilities and skills that will be needed to optimally meet professional responsibilities Provides information about the use of alternative methods of thinking to achieve success in problem solving with special emphasis on imaginative based methods of thinking for multi dimensional problems

**Sustainable Digital Economy, Entrepreneurship, and Blockchain Technology role in Industrial-Organizational Psychology** Muddassar Sarfraz, Larisa Ivascu, Muhammad Ibrahim Abdullah, 2022-08-11
