Postscript: Eisenstein and The Battleship Potemkin, by Freddy Buache, Etc*** Richard Hough, Freddy BUACHE, 1971 ***Red Mutiny*** Neal Bascomb, 2021-03-31 The true story of the deadliest naval mutiny in history For readers of Tom Clancy's *Hunt for Red October* and Nathaniel Philbrick's *In the Heart of the Sea* Neal Bascomb's gripping adventure at sea is the story of courage the power of ideas and the fragile nature of alliance In 1905 after being served rancid meat more than seven hundred Russian sailors mutinied against their officers aboard what was then one of the most powerful battleships in the world Theirs was a life barely worth living a life of hard labor and bitter oppression an existence in its hopelessness and injustice not unlike that of most of the working class in Russia at the time Certainly their rebellion came as no surprise Still against any reasonable odds of success the sailors turned revolutionaries led by a charismatic firebrand risked their lives to take control of the ship and fly the red flag of revolution What followed was a violent port to port chase that spanned eleven harrowing days and came to symbolize the Russian revolution itself A pulse quickening story that alternates between the opulent court of Nicholas II and the razor's edge tension aboard the Potemkin *Red Mutiny* is a tale threaded with terrific adventure epic naval battles heroic sacrifices treachery bloodlust and a rallying cry of freedom that would steer the course of the twentieth century It is also a fine work of scholarship that draws for the first time on the Soviet archives to shed new light on this seminal event in Russian and naval history An elegiac and emotionally involving story beautifully researched A high seas drama as gripping as a novel by C S Forester or Patrick O Brian Bascomb has written a remarkable book about an episode that once historians get it right will rank next to Spartacus uprising against Rome and Washington rallying his troops at Valley Forge Los Angeles Times I can pay this superb book no greater compliment than to admit that despite knowing the outcome I was genuinely gripped as the dramatic events unfolded With this brilliant reassessment Bascomb has restored the extraordinary story of the Potemkin to its rightful place in Russia's history Sunday Telegraph Book Review An outstandingly good book Times of London A masterful touch and perfect pacing

Seattle Times thrilling and judicious Boston Globe A rollicking good yarn an energetic colorful account of 11 days that shook the world Daily Telegraph A real page turner Naval History Bascomb has a knack for writing interesting books about events you're not sure you're all that interested in Now he turns to the mutiny aboard the battleship Potemkin His book all but throbs with Russia vodka fiery rhetoric aristocratic snobbiness peasant resignation Russian glory Russian shame and all the rest of the stuff that made Dr Zhivago such a good movie St Louis Post Dispatch Bascomb presents the gripping events of June 1905 with sharply focused immediacy and a flair for high drama In his capable hands this powerful morality play vividly reminds us never to underestimate a handful of people willing to die for an idea Bascomb recounts the unfolding events in a believable and authoritative voice History at its best readable dramatic and propelled by unforgettable principals Kirkus starred review

The Revolt of the "Potemkin" Konstantin Fel'dman, 1908 Red Mutiny Neal Bascomb, 2008 RED

MUTINY tells how the sailors of Imperial Russia's newest and most powerful battleship POTESKIN seized control and flew the red flag of revolution in June 1905 It is a tale of dramatic adventure naval battles heroic sacrifices treachery and intrigue at the court of the last Tsar A dedicated band of revolutionaries inspire and lead the sailors to overthrow their tyrannical officers but the POTESKIN finds itself steaming around the Black Sea with the rest of the fleet in pursuit Hunted from port to port the mutineers enter Odessa sparking a bloody insurrection made famous by Eisenstein's film and bringing Imperial Russia to its knees As Lenin and many others recognised at the time this was the key event that would make the Russian revolution possible The political consequences of this mutiny were profound but the author concentrates on the individuals involved in these dramatic events it is a brilliantly realised cinematic treatment that really brings the story to life

Naval Mutinies of the Twentieth Century Christopher M. Bell, Bruce A. Elleman, 2003 This volume brings together a set of scholarly readable and up to date essays covering the most significant naval mutinies of the 20th century including Russia 1905 Brazil 1910 Austria 1918 Germany 1918 France 1918 19 Great Britain 1931 Chile 1931 the United States 1944 India 1946 China 1949 Australia and Canada 1949 Each chapter addresses the causes of the mutiny in question its long and short term repercussions and the course of the mutiny itself More generally authors consider the state of the literature on their mutiny and examine significant historiographical issues connected with it taking advantage of new research and new methodologies to provide something of value to both the specialist and non specialist reader The book provides fresh insights into issues such as what a mutiny is what factors cause them what navies are most susceptible to them what responses lead to satisfactory or unsatisfactory conclusions and how far reaching their consequences tend to be

The Revolt of the Battleship Potemkin Carol M. Tovee, 1968 The Russian Revolution of 1905 was a series of chaotic and spontaneous events which while not sufficient to bring down the autocracy forced the promise of a parliamentary system of government from Nicholas II The discontent and unrest of that year affected all segments of the Russian population worker peasant student intellectual revolutionary and even the armed forces On June 14 1905 the battleship Kniaz Potemkin Tavricheskii mutinied

and for eleven days was at large in the Black Sea This incident has subsequently been eulogized by Soviet historians as one of the most significant events of the revolution the conscious defection of the military to the side of the people While the mutiny was a spontaneous reaction to spoiled meat aboard the Potemkin the atmosphere which made the mutiny possible had been prepared by conditions in the navy and in the country generally Agitation by the revolutionary parties particularly the Social Democrats was a contributing cause but the claim that the revolutionaries planned the mutiny would seem to be unjustified From a mutiny the sailors sought to construct a revolution They sailed to Odessa which was in the throes of a general strike but spurned advice to land in force Contrary to their expectations only one other ship of the Black Sea Fleet joined the Potemkin but the Georgia's crew soon had a change of heart and surrendered to the authorities Unwilling to participate in revolutionary events ashore and unable to obtain allies at sea the poorly led and poorly supplied sailors of the Potemkin capitulated to the Romanians This thesis is a description of these events and more particularly the reasons for their occurrence and the causes of the mutiny's failure

Stephen K. Stein,2017-04-24 This two volume set documents the essential role of the sea and maritime activity across history from travel and food production to commerce and conquest In all eras water transport has served as the cheapest and most efficient means of moving cargo and people over any significant distance Only relatively recently have railroads and aircraft provided an alternative Most of the world's bulk goods continue to travel primarily by ship over water Even today 95 percent of the cargo that enters and leaves the United States does so by ship Similarly people around the world rely on the sea for food and in recent years the sea has become an important source of oil and other resources with the longterm effects of our continuing efforts to extract resources from the sea further highlighting environmental concerns that range from pollution to the exhaustion of fish stocks This chronologically organized two volume reference addresses the history of the sea beginning with ancient civilizations 4000 to 1000 BCE and ending with the modern era 1945 to the present day Each of the eight chapters is further broken down into sections that focus on specific nations or regions offering detailed descriptions of that area of the world and shorter entries on specific topics individuals and events The book spans maritime history covering major seafaring peoples and nations famous explorers travelers and commanders events battles and wars key technologies including famous ships important processes and ongoing events such as piracy and the slave trade and more Readers will benefit from dozens of primary source documents ranging from ancient Egyptian tales of seafaring to texts by renowned travelers like Marco Polo Zheng He and Ibn Battuta that provide firsthand accounts from the age of discovery as well as accounts of battle from World War I and II and more modern accounts of the sea

bibliography for further reading The hero is the sailors battleship the Odessa crowd but characteristic figures are snatched here and there from the crowd For a moment like a conjuring trick they attract all the sympathies of the audience like the sailor Vakulinchuk like the young woman and child on the Odessa Steps but they emerge only to dissolve once more into the mass This signifies no film stars but a film of real life types Adrian Piotrovsky writing for the Leningrad newspaper Krasnaia gazeta Russia entered the 20th century in possession of nearly all of the prerequisites for an empire of historic proportions The tsar presided over almost one sixth of the world s land masses extending from a culturally European West to an Asian East with vast expanses of forest steppe and tundra reaching from Poland to the Pacific Ocean Land based military forces reflected the potency of a globally dominant nation and the disparate borders offered several strategic advantages for the navy including Sevastopol in Crimea and Odessa on the Black Sea Virtually all great empires have built and maintained advanced navies from ancient times to the modern era of Spain but Russia lagged behind in the modern armadas typical of world shaping societies This was due in part to the enormity of her four major coastlines To the north stretched a broad icy expanse thousands of miles in breadth To the east lay a second vast coastline from the Bering Strait to the south where it met territory controlled by leading Asian powers The country possessed sizable inland coasts in the Black Sea requiring a fleet of its own and a geographically and culturally distinct Baltic region Many of Russia s major cities were situated far to the interior St Petersburg being the exception and had always enjoyed the natural protection of a wide swath of wilderness and climate resistant to invasion That fact notwithstanding an up to date naval force was needed in response to exterior threats on frontier borders far from Moscow Despite a membership of nearly 60 000 sailors by the turn of the 20th century making Russia s seagoing force the fourth largest in the world the crews were deficient and poorly treated drawn largely from conscripted factory workers and serfs who earned far less in wages than they would have at home This made them particularly susceptible to anti tsarist ideologies and in particular Marxist agitators Likewise most among the officer class were political appointees from the land based aristocracy who lacked the general skill and sensitivity with which to lead men into battles they themselves had never experienced Despite Russia s imposing image in the world less apparent weaknesses within the tsarist government threatened the country s stability The autocratic system had stood firm for several hundred years but only in the 18th and 19th centuries was it surrounded by emerging democracies alluring to working classes around the world Multiple ethnicities from lands conquered in previous centuries maintained an almost provisional membership when faced with the allure of their home empires As with the rest of the population naval forces that had come to be persuaded of anti tsarist arguments did not do so within a vacuum The accumulated unrest throughout the country could provoke a more organized message within the confines of a single warship and indeed it eventually resulted in the first far reaching eruption in the Black Sea Fleet aboard the battleship Potemkin Several events in the early 20th century led to an eroding loyalty among Russian military forces and Potemkin was the first modern ship to reveal it an act that would bring it

fame and make it the subject of some of the most well known works of film and literature in Russian history **The Revolt of the Potemkin** Constantine Feldmann,2021-05-21 The ship that became an iconic symbol of the Soviet revolution The Potemkin was a Russian pre dreadnought battleship built for the Imperial Navy s Black Sea Fleet Some of its crew but by no means the majority rebelled against their officers in June 1905 and this act is considered to be a precursor to the Russian Revolution of 1917 The ship s wider fame became assured with Sergei Eisenstein s classic motion picture of 1925 Battleship Potemkin Following the rebellion the crew fled to Romania to escape inevitable reprisals and the ship was recovered but it was ill fated as it accidentally sunk a Russian submarine in 1909 With no sense of sentimentality for what it symbolised the Potemkin was scrapped by the Soviets in 1923 This book was written by a participant in the aftermath of the rebellion which may have effected its objectivity but it remains a relevant and interesting account Leonaur editions are newly typeset and are not facsimiles each title is available in softcover and hardback with dustjacket *Mutineers and Revolutionaries* John Bushnell,1977 **The Sphere** ,1905 Mentor-World Traveler ,1930 The Mentor-world Traveler ,1930
