out and form a hazy cloud cover They say that anybody who asserts that aircraft are routinely spraying us with toxic materials is crazy If this is so then why are we consistently seeing anomalously high levels of toxins in rainwater as well as in ambient air samples Why are there hundreds of scientists and scores of scientific organizations advocating for spraying substances from aircraft and calling it geoengineering Why is there a world famous PhD scientist who has in a long series of peer reviewed journal articles made the case for chemtrails and shown detailed evidence of their harmful effects How do we have whistleblowers from the Air Force and the Environmental Protection Agency How is it that there is a huge detailed chronologically consistent body of evidence supporting the notion that the lines in the sky are part of a global weather modification project with roots going back over 100 years This is just scratching the surface This book presents the evidence that the government and the mainstream media ignore This book provides the evidence that what is commonly referred to today as geoengineering is an incredibly large ongoing operation involving the open air spraying of tens of thousands of megatons of toxic waste ANNUALLY from high flying jet aircraft Believe it or not the media and the government have not been telling the truth If you seek truth behind the haze Chemtrails Exposed is your definitive guide to the unseen forces shaping our world s climate science and future *The Technological Fix* Lisa Rosner,2013-02-01 The term technological fix should mean a fix provided by technology a solution for all of our problems from medicine and food production to the environment and business Instead technological fix has come to mean a cheap quick fix using inappropriate technology that usually creates more problems than it solves This collection sets out the distinction between a technological fix and a true technological solution Bringing together scholars from a variety of disciplines the essays trace the technological fix as it has appeared throughout the twentieth century Addressing such fixes as artificial hearts industrial agriculture and climate engineering these essays examine our need to turn to technology for solutions to all of our problems *The Journal of Weather Modification* ,1997 Weather Modification United States.
