## Stranger Gods:

**Stranger Gods** Roger Young Clark, 2001 Wide ranging study of Salman Rushdie s seven published novels Bk jacket  
Strangers, Gods and Monsters Richard Kearney, 2005-06-29 Strangers Gods and Monsters is a fascinating look at how human identity is shaped by three powerful but enigmatic forces Often overlooked in accounts of how we think about ourselves and others Richard Kearney skill fully shows with the help of vivid examples and illustrations how the human outlook on the world is formed by the mysterious triumvirate of strangers gods and monsters In the first part of the book he shows how the figure of stranger the barbarian for ancient Greece the savage for imperial Europe defines our own identity by the very idea that it is the Other not we who is unknown He then goes on to examine the image of the monster and with the aid of powerful examples from ancient Minotaurs to medieval demons and post modern enemies argues that human selfhood itself frequently contains a monstrous element In the final part of the book Richard Kearney shows how many gods are still alive for people today testifying to the human psyche s yearning to slip the shackles of our finitude and death Throughout Richard Kearney shows how strangers gods and monsters do not merely reside in myths or fantasies but constitute a central part of our cultural unconscious Above all he argues that until we understand better that the Other resides deep within ourselves we can have little hope of understanding how our most basic fears and desires manifest themselves in the external world and how we can learn to live with them
