 proposes that new music technologies attract unconscious desires for socialism and collectivity enabling millions of people
 living under capitalism to dream of repressed social alternatives Grounded in the philosophical writings of Ernst Bloch and
 Walter Benjamin the book examines file sharing technologies streaming services and media players as well as their historical
 antecedents such as the player piano cassette tape radio and compact disc alongside interpretations of fiction memoir and
 albums Through the concept of wish images the unconscious hopes and desires for social alternatives that gather around new
 technologies the book identifies the repressed pre and post capitalist urges that attend our music technologies While these
 desires typically remain unconscious and tend to pass away not only unmet but also unrecognized Hope and Wish Image in
