## Voluntary Exile:

**Paul, Community, and Discipline** Adam G. White, 2021-10-01 Over the course of several years Paul established numerous Christian communities in cities throughout the Roman Empire Each of these small groups was founded on the premise of inclusivity mutual love and shared concern for other members But what happened when these core tenets were challenged or undermined In *Paul Community and Discipline Establishing Boundaries and Dealing with the Disorderly* Adam G White begins by examining the practice of exile and expulsion in the cities of the Graeco Roman world as well as in the specific social institutions of the family school association and synagogue He then examines the Pauline letters in light of this context arguing that what we see in Paul s communities is both a continuation of as well as a divergence from contemporary practices *Keywords of Identity, Race, and Human Mobility in Early Modern England* Nandini Das, João Vicente Melo, Lauren Working, Haig Smith, 2025-10-01 What did it mean to be a stranger in sixteenth and seventeenth century England How were other nations cultures and religions perceived What happened when individuals moved between languages countries religions and spaces *Keywords of Identity Race and Human Mobility* analyses a selection of terms that were central to the conceptualisation of identity race migration and transculturality in the early modern period In many cases the concepts and debates that they embody or sometimes subsume came to play crucial roles in the articulation of identity rights and power in subsequent periods Together the essays in this volume provide an invaluable resource for anyone interested in the development of these formative issues *The History of the Decline and Fall of the Roman Empire* Edward Gibbon, 1854 **One God, One People** Stephen C. Barton, Andrew J. Byers, 2023-09-22 From ancient times to the present day utopian social ideas have made the unity of humankind a central concern In the face of the threats to civic peace and harmony caused by misrule factions inequality and moral weakness philosophical and religious traditions in antiquity gave considered attention to the attainment of oneness both as an ideal and as an embodied practice In this volume scholars of ancient history early Judaism and biblical studies come together to show that ideas of unity and practices of oneness were grounded in larger conceptions of worldview cosmic order and power with theological ideas such as the oneness of God laying an important foundation In particular contributors focus on how early Christians with their inherited Jewish Greek and Roman traditions reinterpreted oneness in light of their new identity as members of Christ and how they put it into practice Contributors are Stephen C Barton Anna Sieges Beal Max Botner Andrew J Byers Carsten Clau en Kylie Crabbe Robbie Griggs James R Harrison Walter J Houston T J Lang Jutta Leonhardt Balzer John Paul Lotz Lynette Mitchell Nicholas J Moore Elizabeth E Shively Julien C H Smith and Alan Thompson *Human Rights in Ancient Rome* Richard Bauman, 2012-10-02 The concept of human rights has a long history Its practical origins as distinct from its theoretical antecedents are said to be comparatively recent going back no further than the American and French Bills of Rights of the eighteenth century Even those landmarks are seen as little more than the precursors of the twentieth century starting point the Universal Declaration

of Human Rights which was adopted by the General Assembly of the United Nations in 1948 In this unique and stimulating book Richard Bauman investigates the concept of human rights in the Roman world He argues that on the theoretical side ideas were developed by thinkers such as Cicero and Seneca and on the pragmatic side practical applications were rewarded mainly through the law He presents a comprehensive analysis of human rights in ancient Rome and offers enlightening comparisons between the Roman and twentieth century understanding of human rights *Modernism* Astradur Eysteinnsson, Vivian Liska, 2007-10-04 The two volume work *Modernism* has been awarded the prestigious 2008 MSA Book Prize *Modernism* has constituted one of the most prominent fields of literary studies for decades While it was perhaps temporarily overshadowed by postmodernism recent years have seen a resurgence of interest in modernism on both sides of the Atlantic These volumes respond to a need for a collective and multifarious view of literary modernism in various genres locations and languages Asking and responding to a wealth of theoretical aesthetic and historical questions 65 scholars from several countries test the usefulness of the concept of modernism as they probe a variety of contexts from individual texts to national literatures from specific critical issues to broad cross cultural concerns While the chief emphasis of these volumes is on literary modernism literature is seen as entering into diverse cultural and social contexts These range from inter art conjunctions to philosophical environmental urban and political domains including issues of race and space gender and fashion popular culture and trauma science and exile all of which have an urgent bearing on the poetics of modernity
