Will To Power:

Will to Power David Mulhall, 2011-11-01 This study of British Columbia's most famous missionary Father A G Morice OMI casts new lights on his motives and actions Extraordinarily vain and egotistical Morice was obsessed with gaining power and recognition as a missionary explorer and Indian expert With his native intelligence and boundless energy and determination he built a veritable kingdom for himself in northern B C However his rebellious and erratic behaviour finally led to a conflict with his superiors as David Mulhall points out in this fascinating account of a very atypical Oblate missionary

The Will to Power: Part I Friedrich Nietzsche, 2024-05-09 Der Wille zur Macht The Will to Power is a posthumously published collection of Nietzsche's notes and unpublished writings organized by his sister Elisabeth Förster Nietzsche Although Nietzsche did compile the notes and drafts titled The Will to Power it was not published during his lifetime Instead it was posthumously edited and published by his sister Elisabeth Förster Nietzsche and Peter Gast in 1901 Due to the enormous size of the document this was published in two different parts this is Part I Nietzsche's sister introduces the document explaining the origins and development of Nietzsche's thoughts leading up to The Will to Power She describes how Nietzsche's ideas evolved over time influenced by his earlier works such as Thus Spoke Zarathustra She shares personal anecdotes and reflections on how Nietzsche's experiences especially during times of war shaped his philosophy Nietzsche discusses the origins of nihilism focusing on the moral interpretation of existence and the decline of Christianity He critiques how modern science politics and history contribute to the nihilistic worldview Nietzsche defines nihilism as the devaluation of the highest values where traditional beliefs and goals lose their meaning He examines how nihilism manifests as both a philosophical position and a psychological state This modern critical reader's edition offers a clear and accessible translation of Nietzsche's original manuscript using contemporary language and streamlined sentence structures to make his complex ideas easier to engage with Designed for both general readers and students of philosophy the edition includes a range of supporting materials to provide context and deepen understanding These include an afterword by the translator discussing the historical reception and intellectual legacy of the work an index of key philosophical concepts with emphasis on Existentialism and Phenomenology a chronological list of Nietzsche's published works and a detailed timeline of his life highlighting the personal relationships that influenced his thinking

Nietzsche's Will to Power Raymond Angelo Belliotti, 2016-12-14 This book represents a unique contribution to Nietzschean scholarship in its analysis of the concept of power as preliminary to addressing Nietzsche's psychological version of will to power It advances a fresh interpretation of will to power that connects it explicitly to the meaning of human life and in so doing the author addresses major questions such as What does will to power designate What does it presuppose What effects does it engender What is its status epistemologically and metaphysically How is will to power to be evaluated How persuasive is will to power as an explanation of fundamental human instincts and as the lynchpin of a way of life The volume argues that Nietzsche's psychological notion

of will to power cannot plausibly be understood as merely a first order drive to attain and exert power Moreover despite some of the philosopher s extravagant rhetoric will to power is not an inherent instinct to oppress other people or things Instead will to power understood generically is a second order desire to have pursue and attain first order desires it bears a relationship to confronting and overcoming resistances and obstacles and is related to the pursuit of excellence and personal transformation as well as to experiences of feeling power As according to Nietzsche s account all human beings embody will to power the book concludes that we should distinguish at least three varieties robust moderate and attenuated will to power Only by doing this can we understand and evaluate will to power concretely Nietzsche's Will to Power Naturalized Brian Lightbody,2017-01-31 The world viewed from the inside the world defined and determined according to its intelligible character it would be will to power and nothing else Cryptic passages like this one from section 36 of Beyond Good and Evil have been the source of much intrigue speculation and puzzlement in the Nietzschean secondary literature This passage in particular along with many others have sparked a slew of questions in recent decades such as What is the will to power Is will to power a metaphysical principle Is it an empirical assertion Or is will to power merely a hypothesis that Nietzsche himself rejected Although asked ad nauseam in the literature the multitude of answers given to the above questions never seem to satisfy In this book Brian Lightbody shed light on Nietzsche s most famous esoteric teaching by explaining what the will to power is and what it denotes He then demonstrates how will to power may be naturalized in an attempt to show that the doctrine is epistemically and empirically defensible Finally he uses will to power as a philological key of sorts to unlock Nietzsche s philosophy as a whole by showing that his ontology epistemology and ethics are only properly understood once a coherent naturalized rendering of will to power is produced **A Re-interpretation of Will to Power as it Appears in the Works of Friedrich Nietzsche** Gary Alan Wassner,1975 *The Nietzschean Self* Paul Katsafanas,2016 Paul Katsafanas presents a clear systematic study of Nietzsche s moral psychology showing its advantages over its rivals He examines Nietzsche s accounts of conscious and unconscious of the connection between drives desires affects and values of freedom of the unity of the self and its relation to its social and historical context Personality and Social Adjustment Ernest Rutherford Groves,1923 *The World Today* ,1927 *The English Tradition of Education* Cyril Norwood,1929 *The World's Work* ,1922 **The will to power** Friedrich Wilhelm Nietzsche,1910 **Missouri School Journal** ,1925 *An iron will* Jake Nabel,2006 **The New Republic** Herbert David Croly,1921 The Smart Set ,1912 **Winesburg, Ohio** Sherwood Anderson,1922 **Journal of Education** ,1928 The Touleier ,1930 *The Psychology of Christian Life and Behaviour* William Straton Bruce,1923 **Harper's** ,2010
