Womens Speaking:

Speaking of Women Louis Joseph Vance,1930 **Women and Religion in Old and New Worlds** Debra Meyers,Susan Dinan,2014-06-11 This innovative collection brings together essays on women s religious experiences in both Europe and the Americas during the colonial era *On the Voices, Contexts and Tasks of Theology* Rachel Muers,2025-10-16 Who is Christian theology for what is it for and what can it do Rachel Muers explores the voice of Christian theology the relationship between the subject of theology and theological discourse The book begins with the question how does someone speak of God understood not as a question about the criteria or authorised sources for theology but as a question of what is going on when theology is done How is it possible to speak as this particular historical embodied subject about God Muers investigates voice through engagement with historical and contemporary theologians particularly but not only with women who are speaking from relatively marginalised positions and contending with the lack of societal authorisation for their theological work Recognising that the question of voice is often equated in the contemporary context with the representation of identities and with how spaces and institutions can facilitate that representation the narrative considers more directly how questions of identity and context particularly in relation to gender shape the construction and representation of systematic theology and of theological tradition Muers examines the vocation of theology particularly in the contemporary Western academy and alongside other humanities subjects and a concluding chapter sets out a vision for ecumenical theological work The book draws extensively on the author s own Quaker tradition and on her experience of teaching and mentoring theologians
