Laing,1995-08-01 Evolutionary Healing Barbara Sarter,2002 Taking both a spiritual and philosophical approach this book is a reflection of the author s quest to come to terms with the meaning of human suffering The book integrates ancient and modern philisophies of life with modern scientific discovery The author applies these philosophies with the process of healing and describes evolutionary healing as the evolution of one s consciousness through health and disease **The Evolution of Educational Theory** John Adams,1912 **Evolutionary Theory in the**

**Liberalism** Filipe Nobre Faria,2019-11-01 This book assesses the evolutionary sustainability of liberalism The book s central claim is that liberal institutions ultimately weaken their social groups in the evolutionary process of inter group competition In this sense institutions relying on the liberal satisfaction of preferences reveal maladaptive tendencies Based on the model of multilevel selection this work appraises the capacity of liberal democracy and free markets to satisfy preferences In particular the book re evaluates public choice theory s classic postulate that free markets are a suitable alternative to the shortcomings of western liberal democracies regarding preference satisfaction Yet the book concludes that free markets are not a solution to the problems of liberal democracy because both market and democratic liberal institutions rest on the liberal satisfaction of preferences an ethic which hurts group evolutionary fitness This volume is of interest to political theorists evolutionary ethicists political economists and to general readers interested in the future of liberalism
