## **Fitness Planner Tutorial:**

*Designing the Fitness Program* John LeCuyer, 2001 Public safety work is dangerous and the link between fitness and remaining injury free has been well established by research. *Designing the Fitness Program* examines the physical demands on public safety officers as well as an array of related health and safety issues. In proposing that each public safety organization implements a fitness program for its personnel, the author provides a variety of options for ensuring that the standards and test regimens adopted by a department are suitable both in terms of individual members and the roles that they fulfill. His unique thought-provoking analysis of test protocols will help organizations avoid many of the pitfalls associated with modern labour laws and declaring anyone whether rehabilitated member or new recruit fit for duty.

**Contents**  
Part I Analysis Identifying the problem Standards and legal aspects The labour management agreement

**Smartphone Apps for Health and Wellness** John Higgins, Mathew Morico, 2023-01-06 Smartphone Apps for Health and Wellness helps readers navigate the world of smartphone apps to direct them to those which have had the best medical evidence in obtaining the user's goal. The book covers the history of apps, how they work, and specific apps to improve health and wellness in order to improve patient outcomes. It discusses several types of apps including apps for medical care, sleeping, relaxation, nutrition, exercise, and weight loss. In addition, sections present the features of a good app to empower readers to make their own decision when evaluating which one to use. This is a valuable resource for clinicians, physicians, researchers, and members of the biomedical field who are interested in taking advantage of smartphone apps to improve overall health and wellness of patients. Summarizes smartphone apps with the best evidence to improve health and wellness. Discusses the most important features of an app to help readers evaluate which app is appropriate for their specific needs. Presents the typical results expected when regularly using an app in order to assist healthcare providers in predicting patient outcomes.
