Combs,2010-07-30 *Fact Finding Without Facts* explores international criminal fact finding empirically conceptually and normatively After reviewing thousands of pages of transcripts from various international criminal tribunals the author reveals that international criminal trials are beset by numerous and severe fact finding impediments that substantially impair the tribunals ability to determine who did what to whom These fact finding impediments have heretofore received virtually no publicity let alone scholarly treatment and they are deeply troubling not

only because they raise grave concerns about the accuracy of the judgments currently being issued but because they can be expected to similarly impair the next generation of international trials that will be held at the International Criminal Court After setting forth her empirical findings the author considers their conceptual and normative implications The author concludes that international criminal tribunals purport a fact finding competence that they do not possess and as a consequence base their judgments on a less precise more amorphous method of fact finding than they publicly acknowledge

Quality Control in Fact-Finding Morten Bergsmo, 2013-11-16 This book discusses how fact finding mechanisms for alleged violations of international human rights humanitarian and criminal law can be improved There has been a significant increase in the use of international internationalised and domestic fact finding mechanisms since 1992 including by the United Nations human rights system international commissions of inquiry truth and reconciliation commissions and NGOs They are analysed and assessed in detail by 19 authors under the common theme Quality Control in Fact Finding The authors include Richard J Goldstone Martin Scheinin LIU Daqun Charles Garraway David Re Simon De Smet FAN Yuwen Isabelle Lass e WU Xiaodan Dan Saxon Chris Mahony Dov Jacobs Catherine Harwood Lyal S Sunga Wolfgang Kaleck Carolijn Terwindt Ilia Utmelidze and Marina Aksenova Serge Brammertz has written the Preface and LING Yan a Foreword The book emphasises quality awareness and improvement in non criminal justice fact work This quality control approach recognises inter alia the importance of leadership in fact finding mechanisms the responsibility of individual fact finders to continuously professionalise and the need for fact finders to be mandate centred It is an approach that invites the consideration of how the quality of every functional aspect of fact finding can be improved including work processes to identify locate obtain verify analyse corroborate summarise synthesise structure organise present and disseminate facts The book also considers regulatory approaches to enhance quality and professionalisation *Fact-finding Before International Tribunals* Richard B.
