The Culture of the Incarnation: Essays in Catholic Theology Tracey Rowland, 2017-08-01 In this collection of essays distinguished Australian theologian Tracey Rowland takes up the relationship of Christ and culture broadly understood She contrasts the principles undergirding what St John Paul II called a culture of death with those required for the flourishing of a humanism that flows from the grace of the Incarnation Rowland returns frequently to the theological insights of Joseph Ratzinger Pope Benedict XVI to whose thought she is deeply indebted Drawing upon the Augustinian and Thomist traditions

of political theology she offers a trenchant theological critique of liberalism in all its forms with attention to our modern attraction to false utopias and accommodationist impulses The nine essays in this volume engage such perennial topics as the place of natural law the theological status of the world and the nature of true humanism along with timely topics such as the retrieval of the sources of Catholic resistance to Communism and what is now commonly called cultural Marxism Rowland s inimitable voice keen wit and penetrating insight into the distinctiveness of Catholic truth make this book a landmark volume as the Church today revisits anew its relationship to the world

The Incarnation Stephen T. Davis, Daniel Kendall, Gerald O'Collins, 2004 This interdisciplinary study follows an international and ecumenical meeting of twenty four scholars held in New York at Easter 2000 the Incarnation Summit After an opening chapter which summarizes and evaluates twelve major questions concerning the Incarnation five chapters are dedicated to the biblical roots of this central Christian doctrine A patristic and medieval section corrects misinterpretations and retrieves for today the significance of the Council of Chalcedon AD 451 and its aftermath as well as clarifying Aquinas enduring metaphysical interpretation of the Incarnation The volume then moves to theological and philosophical debates three scholars take up such systematic issues as belief in the Incarnation the self emptying that it involves and its compatibility with divine timelessness The remaining four essays consider the place of the doctrine of the Incarnation in literature ethics art and preaching There is a fruitful dialogue between experts in a wide range of areas and the international reputation of the participants reflects and guarantees the high quality of this joint work The result is a well researched skilfully argued and at times provocative volume on the central Christian belief the Incarnation of the Son of God

Maximus the Confessor Paul M. Blowers, 2016-02-04 This study contextualizes the achievement of a strategically crucial figure in Byzantium s turbulent seventh century the monk and theologian Maximus the Confessor 580 662 Building on newer biographical research and a growing international body of scholarship as well as on fresh examination of his diverse literary corpus Paul Blowers develops a profile integrating the two principal initiatives of

Maximus's career first his reinterpretation of the christocentric economy of creation and salvation as a framework for expounding the spiritual and ascetical life of monastic and non monastic Christians and second his intensifying public involvement in the last phase of the ancient christological debates the monothelete controversy wherein Maximus helped lead an East West coalition against Byzantine imperial attempts doctrinally to limit Jesus Christ to a single divine activity and will devoid of properly human volition Blowers identifies what he terms Maximus's cosmo politeian worldview a contemplative and ascetical vision of the participation of all created beings in the novel politeia or reordered existence inaugurated by Christ's new theandric energy Maximus ultimately insinuated his teaching on the christoformity and cruciformity of the human vocation with his rigorous explication of the precise constitution of Christ's own composite person In outlining this cosmo politeian theory Blowers additionally sets forth a theo dramatic reading of Maximus inspired by Hans Urs von Balthasar which depicts the motion of creation and history according to the christocentric plot or interplay of divine and creaturely freedoms Blowers also amplifies how Maximus's cumulative achievement challenged imperial ideology in the seventh century the repercussions of which cost him his life and how it generated multiple recontextualizations in the later history of theology
