The Dangerous Islands:

Islands Magazine, 1993-07 **The Dangerous Islands** Ann Bridge, 1966 **The Channel Islands in Anglo-French Relations, 1689-1918** Colin Partridge, Andrew Lambert, Jean de Préneuf, 2024 Examines how the Channel Islands have been crucial to Britain's successful maritime superiority in the English Channel. The Channel Islands have played a key role in both naval warfare and Anglo-French diplomacy but this has not always been highlighted sufficiently even though Britain and France were at war for most of the period 1689-1815. This book considers a wide range of maritime subjects where the role of the Channel Islands has been significant such as intelligence gathering, piracy and privateering and naval strategy and control of the Channel. It also examines topics in relation to the Channel Islands specifically such as surveying and hydrography, fortifications, trade and Channel Islands societies. It charts changes over time including the impact of technological changes from the wars of Louis XIV and William III through the many Anglo-French wars of the eighteenth and early nineteenth centuries and includes planning for wars which were anticipated but avoided. Throughout the issues are discussed from the perspectives of Britain, France and the Channel Islands themselves, equal weight being given to all three perspectives. Andrew Lambert is Professor of War Studies at King's College London and one of Britain's foremost maritime and naval historians. Colin Partridge is a former consultant to the States of Guernsey's Fortress Guernsey programme for the restoration and interpretation of Guernsey's fortifications. Jean de Préneuf is a Senior Lecturer at the University of Lille and Head of the Research Teaching and Studies Unit at the Historical Branch of the French Ministry of Defence at Vincennes.

Crozet's Voyage to Tasmania, New Zealand the Ladrone Islands, and the Philippines Henry Ling Roth, 2022-07-21 In *Crozet's Voyage to Tasmania, New Zealand the Ladrone Islands and the Philippines* Henry Ling Roth meticulously chronicles the 1771 expedition led by French navigator Jean Pierre Crozet. This seminal work weaves together a rich tapestry of travel narrative, ethnography and natural history offering a vivid portrayal of the diverse cultures and landscapes encountered during the voyage. Roth employs a scholarly yet accessible prose style blending detailed descriptions with analytical observations thus situating the narrative within the broader context of 18th century exploration literature which often sought to reconcile scientific curiosity with colonial ambition. Henry Ling Roth was a dedicated ethnologist and scholar of the Pacific Islands whose academic pursuits were deeply informed by the burgeoning interest in anthropological studies during the early 20th century. His background which combined a philosophical understanding of human cultures with a keen interest in natural history greatly influenced Roth's decision to present Crozet's journey as a significant moment in the documentation of indigenous experiences and environmental landscapes effectively bridging the gap between exploration narratives and social science. This book is an invaluable resource for anyone interested in maritime history, colonial exploration or the ethnographic study of the regions discussed. Roth's insightful analysis and detailed observations invite readers to reflect on the implications of exploration and cultural interaction making it a crucial addition to both academic and personal libraries. Victorian Coral Islands of Empire, Mission, and the Boys' Adventure Novel Michelle Elleray, 2019-11-06 Attending to the mid Victorian boys adventure novel and its connections with missionary culture Michelle Elleray investigates how empire was conveyed to Victorian children in popular forms with a focus on the South Pacific as a key location of adventure tales and missionary efforts The volume draws on an evangelical narrative about the formation of coral islands to demonstrate that missionary investments in the socially marginal the young the working class the racial other generated new forms of agency that are legible in the mid Victorian boys adventure novel even as that agency was subordinated to Christian values identified with the British middle class Situating novels by Frederick Marryat R M Ballantyne and W H G Kingston in the periodical culture of the missionary enterprise this volume newly historicizes British children s textual interactions with

the South Pacific and its peoples Although the mid Victorian authors examined here portray British presence in imperial spaces as a moral imperative our understanding of the adventurer is transformed from the plucky explorer to the cynical mercenary through Robert Louis Stevenson who provides a late nineteenth century critique of the imperial and missionary assumptions that subtended the mid Victorian boys adventure novel of his youth **The Outlook** ,1921 **South Indian Ocean Pilot for the Islands Westward of Longitude 80° east ...** Great Britain.
