Diamonds, Gold, and War Martin Meredith, 2009-09-14 SOUTHERN AFRICA was once regarded as a worthless jumble of British colonies Boer republics and African chiefdoms a troublesome region of little interest to the outside world But then prospectors chanced upon the world's richest deposits of diamonds and gold setting off a titanic struggle between the British and the Boers for control of the region It culminated in the costliest bloodiest and most humiliating war that Britain had waged in nearly a century and left the Boer republics devastated In this gripping history of the turbulent years leading up to the founding of the modern state of South Africa in 1910 Martin Meredith portrays the great wealth and raw power the deceit corruption and racism that lay behind Britain's empire building in southern Africa *Diamonds Gold and War* is a tale of high adventure high finance and high politics that also shows the massive impact of white expansion on indigenous African societies And it explains the rise of the virulent Afrikaner nationalism that eventually took hold with repercussions lasting nearly a century
