Post-Impressionism Jane Bingham,2008-12-17 Introduces Post Impressionism including its history the famous artists and works of the movement and the different methods of painting derived during the period *Post-impressionism* Thomas Parsons,Iain Gale,1999 Within a year of closing the last Impressionist exhibition in 1886 a large and disparate group of movements had appeared each with its own beliefs about the nature and function of art From Neo Impressionism to Symbolism from Gauguin and van Gogh to Matisse and Munch the program of 20th century art was emerging These individual styles are now collectively referred to as Post Impressionism This book imposes coherence and a sense of pattern upon this diverse mix of movements and individuals that reacted against the style and subject matter of the Impressionists

The sociohistoric background against which Post Impressionism evolved and the international reverberations of the movement are presented. Special emphasis is given to the revolution that Post Impressionism created in Russia which had effects far beyond the confines of art.

Post-Impressionists Linda Bolton, 2002-10-01 Discusses the characteristics of the Post Impressionism movement which began in the late 1880s and presents biographies of fifteen Post Impressionist artists.

Manet and the Post-Impressionists Grafton Galleries, 2018-01-10 Excerpt from Manet and the Post Impressionists Nov 8th to Jan 15th 1910 11 10 A M To 6 P M The pictures collected together in the present Exhibition are the work of a group of artists who cannot be defined by any single term. The term Synthetists which has been applied to them by learned criticism does indeed express a quality underlying their diversity and it is the principal business of this introduction to expand the meaning of that word which sounds too like the hiss of an angry gander to be a happy appellation. As a definition it has the drawback that this quality common to all is not always the one most impressive in each artist. In no school does individual temperament count for more. In fact it is the boast of those who believe in this school that its methods enable the individuality of the artist to find complete self expression in his work than is possible to those who have committed themselves to representing objects more literally. This indeed is the first source of their quarrel with the Impressionists. The post impressionists consider the Impressionists too naturalistic. Yet their own connection with Impressionism is extremely close. Cezanne, Gauguin and Van Gogh all learnt in the Impressionist school. There are pictures on the walls by these three artists painted in their earlier years which at first strike the eye as being more impressionist than anything else but nevertheless the connection of these artists with the Impressionists is accidental rather than intrinsic.

The Impressionists and Their Legacy Martha Kapos, 1995. The documents in this book—letters and recorded comments by the artists themselves as well as selections by notable contemporaries including Baudelaire, Zola, Valery, Mallarmé, Huysmans, Laforgue, and Proust—show how artists and critics during and in the aftermath of Impressionism did describe themselves, how they responded to tradition to each other and to the kaleidoscope of the contemporary scene. The ever-expanding interpretation of Impressionism and its legacy within the changing world of twentieth-century art and art criticism is examined through the writings of artists such as Leger, Kandinsky, Masson, Matisse, Bataille, Klee, and Hofmann, as well as recent critics, philosophers, and art historians. Accompanying the texts are 235 color plates of Impressionist and Post Impressionist masterpieces and 242 black and white reproductions of historical photographs, original documents.
