

# THE INSANITY PLEA

Heard the siren song of  
the hydrant

I'm LONELY...  
so LONELY...

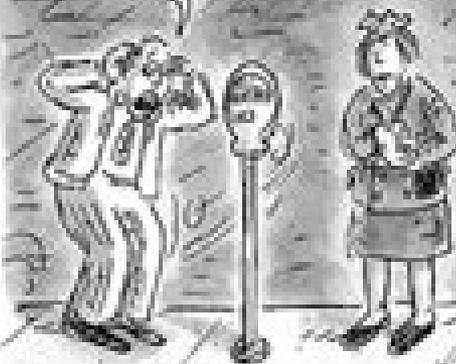

Thought "No Parking Anytime"  
did not apply to demigods.

Was convinced that he and  
parking meter had a  
telepathic understanding.

You BETRAYED  
me!

*The Psychology and Law of Criminal Justice Processes* Roger J. R. Levesque, 2006 Psychological science now reveals much about the law's response to crime This is the first text to bridge both fields as it

presents psychological research and theory relevant to each phase of criminal justice processes The materials are divided into three parts that follow a comprehensive introduction The introduction analyses the major legal themes and values that guide criminal justice processes and points to the many psychological issues they raise Part I examines how the legal system investigates and apprehends criminal suspects Topics range from the identification searching and seizing to the questioning of suspects Part II focuses on how the legal system establishes guilt To do so it centres on the process of bargaining and pleading cases assembling juries providing expert witnesses and considering defendants mental states Part III focuses on the disposition of cases Namely that part highlights the process of sentencing defendants predicting criminal tendencies treating and controlling offenders and determining eligibility for such extreme punishments as the death penalty The format seeks to give readers a feeling for the entire criminal justice process and for the role psychological science has and can play in it

Disorder in the Court Andrea L. Alden, 2018-08-21 Both expert and lay audiences have struggled to understand and apply commonplace definitions of sanity and the portrayal of the insanity defense in popular culture has only served to further frustrate such understandings Andrea L Alden argues that the problems with understanding the insanity defense are at their foundation rhetorical The legal concept of what constitutes insanity and therefore an abdication of responsibility for one's actions does not map neatly onto the mental health professions understandings of mental illness and how that affects an individual's ability to understand or control his or her actions Additionally there are multiple layers of persuasion involved in any effort to convince a judge jury or a public for that matter that a defendant is or is not responsible for his or her actions at a particular moment in time Alden examines landmark court cases such as the trial of Daniel McNaughtan Durham v
