The Intercom Conspiracy:

The Intercom Conspiracy Eric Ambler, 2023-10-03 The unlikely hero of *The Mask of Dimitrios* returns in this intriguing affair to remember from the two time Gold Dagger Award winning author Kirkus Reviews starred review Eric Ambler first introduced the world to the historian and novelist Charles Latimer in his classic thriller *The Mask of Dimitrios* Now Latimer is back on assignment from his American publisher to find out just how the once frivolous international newspaper Intercom unleashed a major geopolitical scandal For Theodore Carter Intercom's hapless hard drinking editor everything changed when the journal was taken over by mysterious new owners Whoever they are they have access to classified information that they are determined to publish Soon agents from the world's superpowers are circling and as Latimer and Carter set about uncovering the source of the secrets they find much more than their careers are on the line *The Intercom Conspiracy*

Eric Ambler, 1971 [The Intercom Conspiracy, a Novel](#), 1970 *The Special Branch* LeRoy Panek, 1981 The author has chosen seventeen of the most important or representative British spy novelists to write about He presents some basic literary analysis and criticism trying both to place them in historical perspective and to describe and analyze the content and form of their fiction [The Art of Indirection in British Espionage Fiction](#) Robert Lance Snyder, 2011-07-25 In contrast to the

classical detective story the spy novel tends to be considered a suspect somewhat subversive genre While previous studies have focused on its historical thematic and ideological dimensions this critical work examines British espionage fiction's unique narrative form which is typically elliptical oblique and recursive Featured works include eighteen novels by Eric Ambler Graham Greene Len Deighton John le Carre Stella Rimington and Charles Cumming most of which exemplify the existential or serious spy thriller Half of these texts pertain to the Cold War era and the other half to its aftermath in the so called Age of Terrorism **Eric Ambler's Novels** Robert Lance Snyder, 2019-12-30 Eric Ambler's first six novels released between 1936 and 1940 quickly established his reputation as a master craftsman of intrigue and espionage narratives Far

less often discussed are the twelve Cold War novels he published after an eleven year hiatus as a screenwriter between 1951 and 1981 This study argues that his entire corpus manifests late modernism's impulse toward a broadly social political and cultural critique of the times Ambler's fiction from the mid 1950s onward is also remarkable for its ludic turn as he assesses the self deceptions of an increasingly bureaucratized and media focused world blind to its own follies In these later works can be seen elements of what has come to be known as postmodernism though in his commitment to chronicling the juggernaut of modernity he remains a uniquely independent witness of what is now being called the long twentieth century
