Cultural Identity and the Nation-State Carol Gould,Pasquale Paquino,2001-06-06 In this collection several distinguished political philosophers consider alternative models of the recognition of diverse cultures and the significance of cultural and national identity within democratic societies The impact of this recognition for conceptions of citizenship and the supposed neutrality of the democratic state is examined in the framework of economic and political

globalization on the one hand and the widespread assertion of cultural and ethnic differences on the other. The tension between the recognition of diverse cultures and universal frameworks of human rights is discussed as are the idea of national self-determination and the new forms of democratic and civic institutions that may be required in order to deal with present political conflicts.

The Nation's Schools Michael Vincent O'Shea, 1952 **Report** Society for the History of the Germans in Maryland, 1929 *Groups and Group Rights* Christine T. Sistiare, Larry May, Leslie Francis, 2001

In matters such as affirmative action or home schooling rights of ethnic and other minority groups often come into conflict with those of society in a culturally diverse population such as ours. But before considering the dilemmas posed by these issues we must first ask such basic but important questions as what group rights are and how they intersect with the principles of democracy. This new collection brings together some of today's leading thinkers from the cutting edge of these debates taking in a broad range of issues confronting philosophers, sociologists and political scientists. Contributors such as Carl Wellman, Carol Gould and Rex Martin examine the nature of groups and the conflict between group rights and democracy and also consider case studies depicting current issues in cultural, ethnic and religious rights. The first section on the nature of groups examines some of the perplexing alternatives in the formulation of a theory of group rights. These articles investigate the kinds of rights minorities might claim and ask when groups can be held responsible for the acts of some of their members. The second section addresses the treatment of groups in a democracy and the precarious balance between indifference toward minorities and capitulation to their demands. Here the contributors examine five principles for the sensitive treatment of minority and disadvantaged groups in a democratic society. A final section explores specific conflicts between subgroup and societal claims through case studies dealing with affirmative action, religious practice and the education of children and the land rights of indigenous peoples. By drawing on the legal and political dilemmas related to these cases the authors confront issues of core versus peripheral interests of individual member versus subgroup rights and of the possibilities for social openness raised in the preceding sections. Written from varied perspectives *Groups and Group Rights* offers stimulating reading for both students and professionals as it takes on some of the most pressing dilemmas confronting our society.

The Economic Laws of Art Production Hubert Llewellyn Smith, 1924 *Records of the General Conference of the United Nations Educational, Scientific and Cultural Organization* Unesco. General Conference, 1978. Records for the 2d sess issued in two sections v 1 Proceedings and v 2 Resolutions **The New Republic** Herbert David Croly, 1908 *Randolph Bourne and the Politics of Cultural Radicalism* Leslie J. Vaughan, 1997

Reassesses the short life and career of American essayist, critic and founder of cultural radicalism. Bourne 1886-1918 known today mostly for his opposition to US military involvement in Europe and warnings about the military-industrial complex. Vaughan, political science U of Minnesota Duluth argues that his stance from outside establishment perspectives was not a retreat from politics as many have claimed but a form of political engagement free from the suppositions that impede genuine debate and democratic change.
