The Savage Earth:

The Savage Earth P. T. Hylton, Jonathan Benecke, 2017-04-26 It's been over a century since the humans lost the war for Earth. Cities have been reclaimed by nature and the planet is quiet and empty by day. At night feral vampires more beast than man roam the lands hungry for blood. The few thousand surviving humans live on a massive airship that circles the Earth moving with the rotation of the planet so it's always in sunlight. Alexandria Goddard is a member of the elite Ground Mission Team, a group tasked with making dangerous runs to the planet's surface for the supplies needed to keep the ship airborne. But even as the team fights for their people's survival, dangerous forces are working against them. A growing movement aboard the airship believes it's time for humans to resettle the Earth and they are willing to go to extreme measures to make their vision a reality. As the situation aboard the ship becomes more desperate, Alex and her team discover a terrifying secret about the vampires infesting the Earth. P. T. Hylton, author of *Regulation 19* and the Zane Holloway series, and Jonathan Benecke, a bold new voice in science fiction, bring you a post-apocalyptic vision of a world where vampires rule, humanity is on the run, and safety is an illusion as fleeting as a shadow.

The Savage Earth Helga Moray, 1968 [Savage Earth](#) Dominick Mezzapesa, 2002-10 Thousands of years ago an ancient peace-loving alien culture called the Argolians visited Earth and helped humanity take hold, and as a result took the little planet under its wing. Later, after watching most of their race brutally slaughtered by the Kontarians, the last few remaining Argolians flee with the object the evil Kontarians are lusting after: the Stone of Unarl, a living gem that possesses incredible power. Now the Argolians are back to help save Earth, the last of the Argolians' sister planets, which is in danger of being destroyed by the Kontarians. Aware that the sudden appearance of a group of aliens on Earth would cause more havoc than good, the Argolians have chosen one reluctant human to try and save the planet. After intensive training, John Savage takes command of the Argolians, gifts a small craft that is one of the most powerful weapons in the universe, and can Earth's newest hero succeed? To do so, Savage must not only overcome his own fears of failure but also defeat the Kontarian spies placed on Earth years before. These aliens will do anything to possess Savage's ship and delay his training until the Kontarian fleet arrives.

Savage Earth Helga Moray, 1973-09 **Savage Earth** DK, 2006-03-06 DK Guides *Savage Earth* provides a remarkable account of our planet's structure and the literally Earth-shattering process that shaped it, often with savage consequences for human beings and other living things. Lavishly and spectacularly illustrated with many unusual views of the Earth and its features, *Savage Earth* offers a comprehensive approach to understanding the making and shaping of planet Earth. Take a dramatic journey across the planet with *Savage Earth*.
