

A man's profile is shown five times in a row, fading from left to right. The man has dark hair and a beard, and is wearing a dark grey t-shirt. The background is a dark grey gradient. The text "THE PRACTICE OF SELF OBSERVATION" is overlaid in the center in a bold, yellow, sans-serif font.

THE PRACTICE OF SELF OBSERVATION

The Self Observed

Zhe Xu

The Self Observed:

Self-Observation in the Social Sciences Joshua W. Clegg, 2018-04-17 Notwithstanding the mythical demise of introspection self observation has always been an integral aspect of the social sciences In the century following the behavioral revolution psychology has seen a reduction not so much in the frequency as in the rigor with which self observation is practiced A great deal of self observation has been renamed or obscured as for example self report but this has served only to defer and impoverish important theoretical and technical work This volume which contributes to the development of a rigorous theory of self observation is organized around three general objectives to re animate a discourse on self observation through a historical analysis of various self observation traditions to outline and begin to address some of the unique theoretical challenges of self observation and to elaborate some of the technical and practical details necessary for realizing a program of research dedicated to self observation In the first section of the book three historians of psychology trace the evolution of self observation In the second three scholars who are currently working in contemporary traditions of self observation discuss the basic theoretical and practical challenges involved in conducting self observation research In the final two sections of the book scholars from the phenomenological and narrative traditions trace the history theory and practice of self observation in their respective traditions *Self Observation in the Social Sciences* continues the fine tradition set by Transaction s *History and Theory of Psychology* series edited by Jaan Valsiner It is of interest to psychologists and to those who study methodology within the social sciences

Results of astronomical and meteorological observations made at the Radcliffe Observatory, Oxford ,1884 *Self-Observation in the Social Sciences* Joshua W.
