The White Train

Émile Zola

The White Train:

The White Train Larry Purcell, 2003-09 The White Train A secret train carrying nuclear missiles and protected by the most lethal anti terrorist devices available has vanished without a trace The President receives a fax in the Oval Office the contents of which carry an impact of icy terror His efforts to place nuclear warheads in the hands of an unfriendly Third World nation to achieve a strategic advantage for the United States has started to unravel The fax signed by a mysterious militant group has a simple ransom demand one the President can neither meet nor acknowledge The President must rely on a shady cast of unscrupulous advisors and ruthless agents to effect the return of the train to its mission without going public alarming the American people or incurring the wrath of the Congress of the United States All that stands in the way of this highly illegal and clandestine mission s success is a strange alliance between an Air Force special operative an investigative reporter for the Washington Post and a world renowned anthropologist

Reimagining Time Tanya Bub, Jeffrey Bub, 2021-04-13 A quirky funny and accessible blend of science and art that delves into the heart of Einstein s theory of relativity It was a link to his 1905 paper an early attempt at explaining his revolutionary ideas on space time and matter that drew Tanya Bub into Albert Einstein s imaginative vision of the world What particularly struck her was how Einstein interwove words and math to create clear visuals illustrating his theories As an artist she naturally started doodling as she worked her way through his concepts creating drawings that intuitively demonstrated Einstein s core principles In **Reimagining Time** Tanya Bub teams up with her father the distinguished physicist Jeffrey Bub to create a quirky and accessible take on one of science s most revolutionary discoveries Blending original art and text they guide readers through Einstein s theory of special relativity to expose truths about our universe time is relative lengths get shorter with motion energy and mass are interchangeable and the Universe has a speed limit

Trains, 1978 *Lourdes* Émile Zola, 1897

Passenger Terminals and Trains John Albert Droege, 1916 At the noontide of the American passenger train the general superintendent of the passenger oriented New Haven Railroad addressed himself to the rail carriage of people in a lucid book that could be comprehended by anyone but that as *Railway Age Gazette* noted would be wanted in every railroad officer s library From the size of waiting rooms to the demeanor of redcaps from the contest between A C and D C electrification to the menus of dining cars no subject pertinent to the world of passenger terminals and trains in the year 1916 escaped the experienced eye of John A Droege Thus unconsciously he penned what is in retrospect a masterful history of how the railroads reacted when a restless growing America besieged the gates of Union Station intent upon purchasing tickets to everywhere from Passaic to Pasadena Kalmbach has faithfully reproduced all 410 pages of the original edition of Droege s **Passenger Terminals and Trains** which include 25 track diagrams 31 station floor plans 163 photos and an index and has taken the measure of the volume in a special introduction by Prof George W Hilton An outstanding contribution to railroad literature
