The Wizards of Armageddon Fred M. Kaplan, 1984 On the decisions of a small group that devised the plans and policies on the use of nuclear weapons Annotation copyrighted by Book News Inc Portland OR [The Wizards of Armageddon](#) Fred Kaplan, 1991-08-01 This is the untold story of the small group of men who have devised the plans and shaped the policies on how to use the Bomb The book first published in 1983 explores the secret world of these strategists of the nuclear age and brings to light a chapter in American political and military history never before revealed [Bulletin of the Atomic Scientists](#), 1985-10 The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security Founded by Manhattan Project Scientists the Bulletin s iconic Doomsday Clock stimulates solutions for a safer world *The Realist Tradition in International Relations* Barry Scott Zellen, 2011-08-19 This

comprehensive foundation for the study of realism will introduce students in disciplines as varied as philosophy international relations and strategic studies to the majestic breadth of the realist tradition that unifies them all *The Realist Tradition in International Relations The Foundations of Western Order* introduces the principal theorists who have shaped and defined the realist tradition This once dominant theory of international politics has reemerged to provide a shared foundation for understanding political theory international relations theory and strategic studies The work is comprised of four volumes each focusing upon a distinct period and the pivotal contributors writing in that era Volume 1 State of Hope looks at the classical era when chaos reigned supreme Volume 2 State of Fear goes through the early modern period and the emergence of the modern state Volume 3 State of Awe explores the age of total war with its unprecedented dangers Volume 4 State of Siege examines the present era of insurgency and asymmetrical conflict A truly monumental work this sweeping study will surely foster a new appreciation of the rich tapestry of realist thought and its continuing relevance to the study of world politics

A Global History of the Nuclear Arms Race Richard Dean Burns, Joseph M. Siracusa, 2013-04-23 Written by two preeminent authors in the field this book provides an accessible global narrative of the nuclear arms race since 1945 that focuses on the roles of key scientists military chiefs and political leaders The first book of its kind to provide a global perspective of the arms race this two volume work connects episodes worldwide involving nuclear weapons in a comprehensive narrative fashion Beginning with a discussion of the scientific research of the 1930s and 1940s and the Hiroshima decision the authors focus on five basic themes political dimensions technological developments military and diplomatic strategies and impact The history of the international nuclear arms race is examined within the context of four historical eras America s nuclear monopoly America s nuclear superiority superpower parity and the post Cold War era

Information about the historical development of the independent deterrence of Britain France and China as well as the piecemeal deterrence of newcomers Israel India Pakistan and North Korea is also included as is coverage of the efforts aimed at the international control of nuclear weapons and the diplomatic architecture that underpins the global nuclear non proliferation regime

Stalking the Antichrists (1940?1965) Volume 1 George E. Lowe,2013-02 It is based on the inspiring definitions of the word introduction 1651 My actions of bringing in a newly weapon since August 1945 brought into the world and to its process of the application in war and with an in depth initiation in the knowledge of elementary instruction regarding Deterrents and Deterrence thereof which leads to the knowledge or understanding of the impact of both fission and fusion nuclear weapons on war politics foreign policy strategy and the fate of the Earth Gaia God s Creation thanks to my insights gained personally at Grove City College the University of Chicago U S Navy Air Intelligence Officer and State Department Foreign Service Officer and herewith presented as my introduction to the formal introduction of my halting but determined attempts to deter a thermonuclear World War III and Armageddon too 1945 2012 Modified from Introduction Shorter Oxford English Dictionary Third Edition 1959 p 1036

The New American Way of War Ben Buley,2007-10-25 This book explores the cultural history and future prospects of the so called new American way of war In recent decades American military culture has become increasingly dominated by a vision of immaculate destruction which reached its apogee with the fall of Baghdad in 2003 Operation Iraqi Freedom was hailed as the triumphant validation

American Airpower Strategy in Korea, 1950-1953 Conrad C. Crane,2000 The Korean War was the first armed engagement for the newly formed U S Air Force but far from the type of conflict it expected or wanted to fight As the first air war of the nuclear age it posed a major challenge to the service to define and successfully carry out its mission by stretching the constraints of limited war while avoiding the excesses of total war Conrad Crane analyzes both the successes and failures of the air force in Korea offering a balanced treatment of how the air war in Korea actually unfolded He examines the Air Force s contention that it could play a decisive role in a non nuclear regional war but shows that the fledgling service was held to unrealistically high expectations based on airpower s performance in World War II despite being constrained by the limited nature of the Korean conflict Crane exposes the tensions and rivalries between services showing that emphasis on strategic bombing came at the expense of air support for ground troops and he tells how interactions between army and air force generals shaped the air force s mission and strategy He also addresses misunderstandings about plans to use nuclear biological and chemical weapons in the war and includes new information from pilot correspondence about the informal policy of hot pursuit over the Yalu that existed at the end of the war The book considers not only the actual air effort in Korea but also its ramifications The air force doubled in size during the war and used that growth to secure its position in the defense establishment but it wagered its future on its ability to deliver nuclear weapons in a high intensity conflict a position that left it unprepared to fight the next limited war in Vietnam As America observes the fiftieth anniversary of its initial engagement in Korea Crane s book is an

important reminder of the lessons learned there And as airpower continues to be a cornerstone of American defense this examination of its uses in Korea provides new insights about the air force s capabilities and limitations

The Origins of SDI, 1944-1983 Donald R. Baucom,1992 Most people think Star Wars began with the ideas of Ronald Reagan but its roots reach decades further back In this first scholarly account of the origins of the Strategic Defense Initiative SDI historian Don Baucom traces these roots back to the dawn of the missile age in 1944 He finds SDI emerging after a period of nearly 40 years from forces generated by technological developments changing strategic conditions and the collapse of the SALT arms control negotiations of the 1970s

Rand's Role in the Evolution of Balloon and Satellite Observation Systems and Related U.S. Space Technology Merton E. Davies,William Robert Harris,1988 This history commemorates the 40th anniversary of The RAND Corporation 1948 1988 RAND research studies aided in development of concepts system requirements and development programs for space satellites operational in the 1960s RAND research in 1946 1954 emphasized reconnaissance missions for balloons and electro optical TV reconnaissance satellites with data relay Thereafter RAND proposed use of recoverable film storage satellite payloads with simple guidance systems so that reconnaissance satellites could aid in arms control verification when intercontinental ballistic missiles ICBMs were deployed In the 1950s RAND space technology studies dealt with scientific exploration of the moon and solar system satellites for weather forecasting and for mapping missile launch detection and technology applications for the civil space program of the National Aeronautics and Space Administration Innovative studies of balloon reconnaissance platforms ICBMs uses of panoramic cameras for remote observation of earth and use of infrared satellites for missile launch warning resulted from researcher initiated studies

The Nuclear Predicament Peter R. Beckman,1992 Updated to reflect how the end of the Cold War gives us an opportunity to redefine the way the nuclear world operates this text shows how nuclear weapons have changed the world militarily politically socially and ethically

[The Holocaust and Strategic Bombing](#) Eric Markusen,David Kopf,1995-04-26 Examining the Nazi Holocaust and the U S British strategic bombing of cities during World War II Markusen and Kopf uncover some striking parallels between the two programs of governmental violence Although there were important differences in the two cases the authors show that ultimately democracies and totalitarian governments alike will resort to genocidal killing if it is perceived to be essential to national security The authors suggest that the continuing reliance on nuclear weapons reflects similar psychological and social factors to those that facilitated the Holocaust and strategic bombing during World War II

[America's Space Sentinels](#) Jeffrey Richelson,1999 During much of the Cold War America s first line of defense was in outer space a network of secret satellites that could provide instant warning of an enemy missile launch The presence of these infrared sensors orbiting 22 000 miles above the earth discouraged a Soviet first strike and stabilized international relations between the superpowers and they now play a crucial role in monitoring the missile programs of China India and other emerging nuclear powers Jeffrey Richelson has written the first comprehensive history of

this vital program tracing its evolution from the late 1950s to the present He puts Defense Support Program operations in the context of world events from Russian missile programs to the Gulf War and explains how DSP s infrared sensors are used to detect meteorites monitor forest fires and even gather industrial intelligence by seeing the lights of steel mills Strategic Transformation and Naval Power in the 21st Century Pelham G. Boyer,Robert S. Wood,1998 Examines U S security strategy and the appropriate response by our naval services Papers global trends and Amer strategic traditions Russia in strategic perspective beyond Korea Pacific peace Pacific contention the U S in the face of the Islamic revival a strategic checklist for the Post Cold War world leveraging strategic assets to enhance international security the strategy of selective engagement U S grand strategy mission impossible strategic concepts for the future naval diplomacy in the 21st century grand strategy and naval force structure classic roles and future challenges and naval power in national strategy in the 2nd Amer century

Counterculture Green Andrew G. Kirk,2007 For many it was more than a publication it was a way of life The Whole Earth Catalog billed itself as Access to Tools and it grew from a Bay Area blip to a national phenomenon catering to hippies do it yourselfers and anyone interested in self sufficiency independent of mainstream America now known as living off the grid In recovering the history of the Catalog s unique brand of environmentalism historian Kirk recounts how Stewart Brand and the Point Foundation promoted a philosophy of pragmatic environmentalism that celebrated technological achievement human ingenuity and sustainable living Kirk shows us that Whole Earth was more than a mere counterculture fad At a time when many of these ideas were seen as heretical to a predominantly wilderness based movement it became a critical forum for environmental alternatives and a model for how complicated ecological ideas could be presented in a hopeful and even humorous way From publisher description America, Russia, and the Cold War Walter LaFeber,Tisch Distinguished University Professor and M U Noll Professor of History Emeritus Walter LaFeber,1987 Bulletin of the Atomic Scientists ,2003 **Naval War College Review** ,1996 *Extended Deterrence in Korea* Terence J.
