examine the entirety of Kingston's literary career from *The Woman Warrior* to her most recent volume of poetry. Julia H. Lee weaves together scholarly assessments, interviews, biographical information, and her own critical analysis to provide a complete and complex picture of Kingston's works and its impact on memoir, feminist fiction, Asian American literature, and postmodern literature. Lee examines the influence that previous generations of Asian American authors, feminism, and antiwar activism have had on Kingston's work. Offering important contextual information about Kingston's life, Lee shows how it has so often served as a starting point for Kingston's writing. Also studied are her complex attitudes toward genre and her ever-evolving identity as a novelist, essayist, memoirist, and poet. A comprehensive bibliography of critical secondary sources will be an invaluable resource for readers and critics of Kingston's works.

Women as Sites of Culture Susan Shifrin, 2017-03-02
Exploring the ways in which women have formed and defined expressions of culture in a range of geographical, political, and historical settings, this collection of essays examines women's figurative and literal roles as sites of culture from the 16th century to the present day. The diversity of chronological, geographical, and cultural subjects investigated by the contributors from the 16th century to the 20th, from Renaissance Italy to Puritan Boston to the Polish-Lithuanian Commonwealth to post-war Japan, from parliamentary politics to the politics of representation, provides a range of historical outlooks. The collection brings an unusual variety of methodological approaches to the project of discovering intersections among women's studies, literary studies, cultural studies, history, and art history, and expands beyond the Anglo and Eurocentric focus often found in other works in the field. The volume presents an in-depth investigative study of a tightly constructed set of crucial themes, including that of the female body as a governing trope in political and cultural discourses, the roles played by women, and notions of womanhood in redefining traditions of ceremony, theatricality, and spectacle; women's iconographies and personal spaces as resources that have shaped cultural transactions and evolutions; and finally, women's voices speaking and writing both as authors of cultural record and destiny. Throughout the volume, the themes are refracted chronologically, geographically, and disciplinarily as a means to deeper understanding of their content and contexts. *Women as Sites of Culture* represents a productive collaboration of historians from various disciplines in coherently addressing issues revolving around the roles of gender, text, and image in a range of cultures and periods.

A Study Guide for Maxine Hong Kingston's "The Woman Warrior" Cengage Learning Gale, 2017-07-25
[Maxine Hong Kingston's Broken Book of Life](#) Maureen Sabine, 2004-02-29
The numerous studies of Maxine Hong Kingston's touchstone work *The Woman Warrior* fail to take into account the stories in *China Men*, which were largely written together with those in *The Woman Warrior* but later published separately. Although Hong Kingston's decision to separate the male and female narratives enabled readers to see the strength of the resulting feminist point of view in *The Woman Warrior*, the author has steadily maintained that to understand the book fully, it was necessary to read its male companion text. Maureen Sabine's ambitious study of *The Woman Warrior* and *China Men* aims to bring these divided texts back together with a close reading that looks for the textual traces

of the father in *The Woman Warrior* and shows how the daughter narrator tracks down his history in *China Men*. She considers theories of intertextuality that open up the possibility of a dynamic interplay between the two books and suggests that the Hong family women and men may be struggling for dialogue with each other even when they appear textually silent or apart.

Maxine Hong Kingston: The Woman Warrior, China Men, Tripmaster Monkey, Hawai'i O ne Summer, Other Writings (LOA #355) Maxine Hong Kingston, 2022-05-17 The largest and most comprehensive edition of our foremost Asian American writer's three classic books and additional writings, many rare, that together offer a vivid and searching portrait of immigrant experience and American dreams. Maxine Hong Kingston made a stunning entrance on the American literary scene with *The Woman Warrior* (1976), her memoirs of a childhood among ghosts. Not only an account of growing up poor and Chinese American in the San Joaquin Valley, it was also an audacious feat of imaginative transformation and pathbreaking work of feminist autobiography, drawing on ancient myths and the family stories her mother brought over from China to make sense of a transformed life in America. A companion to *The Woman Warrior*, which she called her mother book, Kingston's father book *China Men* (1980) spreads out across a large geographical and historical canvas to envision the lives of her male relatives who immigrated to America. Taken together, *The Woman Warrior* and *China Men* offer a profound kaleidoscopic, genre-defying narrative of the American experience. Kingston's third book, *Tripmaster Monkey: His Fake Book* (1989), is the wildly inventive story of Wittman Ah Sing, a Berkeley graduate student whose experience of the San Francisco Beat scene transforms his understanding of his own Chinese heritage. Rounding out the volume are a series of essays from 1978 reflecting on her life in Hawaii, later collected as *Hawai'i One Summer*, personal musings whose subjects range from the contentions of a conference of Asian American writers to home buying, surfing, and the work of the Beat poet Lew Welch. Also included are hard-to-find essays about the creative process and Kingston's exasperated, insightful account of how most of the reviewers of *The Woman Warrior* fell prey to lazy stereotypes about the exotic and inscrutable East.
