The Wonder Of Seeing Double:

The Wonder of Seeing Double Robert Burns Shaw,1988 *Seeing Double* Françoise Meltzer,2011-06-15 The poet Charles Baudelaire 1821 1867 has been labeled the very icon of modernity the scribe of the modern city and an observer of an emerging capitalist culture *Seeing Double* reconsiders this iconic literary figure and his fraught relationship with the nineteenth century world by examining the way in which he viewed the increasing dominance of modern life In doing so it revises some of our most common assumptions about the unresolved tensions that emerged in Baudelaire s writing during a time of political and social upheaval Fran oise Meltzer argues that Baudelaire did not simply describe the contradictions of modernity instead his work embodied and recorded them leaving them unresolved and often less than comprehensible Baudelaire s penchant for looking simultaneously backward to an idealized past and forward to an anxious future while suspending the tension between them is part of what Meltzer calls his double vision a way of seeing that produces encounters that are doomed to fail poems that can t advance and communications that always seem to falter In looking again at the poet and his work *Seeing Double* helps to us to understand the prodigious transformations at stake in the writing of modern life [The Wonders of the Microscope, Or, An Explanation of the Wisdom of the Creator in Objects Comparatively Minute](#) Wonders,1806
