Did you know that almost a third of the world's 1,300 species of bats are in serious trouble? The latest updated edition of a teacher and classroom favorite with two brand new illustrations and spotlights on vanishing species and how we can help. Perfect for budding scientists, environmentalists, and nature lovers. Chased from their caves and forests, sickened by cave-dwelling fungi and swept from the skies by wind turbines, bats have no place to hide. And human actions often contribute to the problems. How can we help ensure that there will be a safe place for bats? In simple yet compelling language, acclaimed science writer Melissa Stewart showcases twelve types of North American bats, from the familiar little brown bat to the Mexican free-tailed bat. Her clear narrative shows the threats these bats face, and updated informative sidebars describe a variety of efforts to save them. In addition, remarkable full-color illustrations vividly and accurately depict bats within the ecosystems that support their survival. Range maps and additional bat facts are also included. This newly updated nonfiction picture book is part of a prize-winning series designed to inform young readers about a wide range of environmental issues and to present ways people can help protect animals and their natural habitats. **Walker's Bats of the World** Ronald M.
