Avery Index to Architectural Periodicals. 2d Ed., Rev. and Enl Avery Library,1992      **Chicago Genealogist** ,1987  
Avery Index to Architectural Periodicals Avery Library,1997      **Construction Materials Manual** Manfred  
Hegger,Volker Auch-Schwelk,Matthias Fuchs,Thorsten Rosenkranz,2013-02-12 Until now the few existing systematic texts on  
construction materials have primarily been directed at building engineers An overview for architects which also considers  
the importance of construction materials in the sensory perception of architecture including tactile qualities smell color and  
surface structure has not been available With the publication of the Construction Materials Manual all that has changed As a  
basic work aimed equally at the questions and perspectives of architects and building engineers it will bring together all of  
the above mentioned viewpoints It addresses fundamental questions of sustainability including life span environmental  
impact and material cycles while also presenting material innovations All of the principal conventional and innovative  
construction materials are comprehensively documented with attention to their production manufacture fabrication  
treatment surfaces connections and characteristics International examples help to illustrate their use in architecture where a  
building s appearance is often defined by a single material Thus the Construction Materials Manual will support the daily  
work of architects and engineers in the choice of construction materials in a comprehensive and at the same time vivid and  
stimulating manner      Architectural Publications Index ,1998      Museum Buildings Paul v Naredi-Rainer,Oliver  
Hilger,2004 Museums are architectural trend setters Culture sponsoring and their increasing role as tourist attractions are  
guarantees for an ongoing boom in museum construction A tradition and typology developed over the centuries the  
experience gained in recent decades and cutting edge technology all contribute to the practice of modern day museum  
building History and form site development floor plan air conditioning and climate technology are just some examples of the  
subjects treated systematically in the first section of this design manual Some 70 international museum case studies  
exemplify solutions and emphasize specific museum design issues such as spatial organisation and arrangement and lighting  
Paul von Naredi Rainer is an expert on the subject of museum construction and author of the widely read *Architektur und
