

Soviet Submarines

Tom Stefanick

Soviet Submarines:

Soviet Cold War Attack Submarines Edward Hampshire,2020-09-17 In this highly detailed book naval historian Edward Hampshire reveals the fascinating history of the nuclear powered attack submarines built and operated by the Soviet Union in the Cold War including each class of these formidable craft as they developed throughout the Cold War period The November class which were the Soviet Union s first nuclear submarines had originally been designed to fire a single enormous nuclear tipped torpedo but were eventually completed as boats firing standard torpedoes The Alfa class were perhaps the most remarkable submarines of the Cold War titanium hulled which was light and strong but extremely expensive and difficult to weld successfully crewed with only thirty men due to considerable automation and 30% faster than any US submarines they used a radical liquid lead bismuth alloy in the reactor plant The Victor class formed the backbone of the Soviet nuclear submarine fleet in the 1970s and 1980s as hunter killer submarines began to focus on tracking and potentially destroying NATO ballistic missile submarines The Sierra classes were further titanium hulled submarines and the single Mike class submarine was an experimental type containing a number of innovations Finally the Akula class were being constructed as the Cold War ended and these boats form the mainstay of the Russian nuclear attack submarine fleet today This book explores the design development and deployment of each of these classes in detail offering an unparalleled insight into the submarines which served the Soviet Union throughout the Cold War period The text is supported by stunning illustrations photographs and diagrams of the submarines

Cold War Submarines Norman Polmar,Kenneth J. Moore,2004 Submarines had a vital if often unheralded role in the superpower navies during the Cold War Their crews carried out intelligence collection operations sought out and stood ready to destroy opposing submarines and from the early 1960s threatened missile attacks on their adversary s homeland providing in many respects the most survivable nuclear deterrent of the Cold War For both East and West the modern submarine originated in German U boat designs obtained at the end of World War II Although enjoying a similar technology base by the 1990s the superpowers had created submarine fleets of radically different designs and capabilities Written in collaboration with the former Soviet submarine design bureaus Norman Polmar and K J Moore authoritatively demonstrate in this landmark study how differing submarine missions antisubmarine priorities levels of technical competence and approaches to submarine design organizations and management caused the divergence

Stalin's Ocean-going Fleet: Soviet Jurgen Rohwer,2017-07-05 In this work two senior naval historians analyze the discussions held in leading Soviet political military and naval circles concerning naval strategy and the decisions taken for warship building programmes They describe the reconstitution of the fleet under difficult conditions from the end of the Civil War up to the mid 1920s leading to a change from classical naval strategy to a Jeune ecole model in the first two Five Year Plans including efforts to obtain foreign assistance in the design of warships and submarines Their aim is to explain the reasons for the sudden change in 1935 to begin building a big ocean going fleet After a period of co operation with

Germany from 1939-41 the plans came to a halt when Hitler attacked the Soviet Union in 1941. Finally this work covers the reopening of the naval planning processes in 1944 and 1945 and the discussions of the naval leadership with Stalin, the party and government officials about the direction of the new building programmes as the Cold War began. **Stalin's Ocean-going Fleet** Mikhail Monakov, Jürgen Rohwer, 2012-11-12. A study of the development of strategic concepts in Stalin's Navy in the context of his foreign defence policy using original archival documents translated from the Russian. *Soviet Submarines* Jan S. Breemer, 1989. *Soviet Submarines* David Miller, 1988. Examines the history, capabilities and tactics of the Soviet Navy's submarine fleet describing the various classes of submarines and their weapons. *Submarine Operational Effectiveness in the 20th Century* Captain John F. O'Connell, USN (RET.), 2011-08-18. The submarine emerged as a serious weapons system during the First World War 1914-1918. During that conflict Germany with its unrestricted submarine warfare campaign of 1917 nearly drove Great Britain to the negotiating table. Its U-boats sank 6,196 ships of 13,438,632 gross register tons. Despite post-war attempts to ban the submarine from warfare it survived. Both Italy and Germany used submarines covertly during the Spanish Civil War 1936-1939. This book Part Two of a series discusses the use of submarines during World War Two 1939-1945 and their effectiveness. It focuses principally on two strategic submarine campaigns. The first is about German U-boats against British and neutral commerce. That campaign finally failed during the Battle of The Atlantic in 1943. The second deals with American submarines against Japanese shipping from Southeast Asia to the home islands, a campaign that successfully isolated Japan from its sources of raw materials and foodstuffs during 1944 and effectively defeated Japan. *Soviet Cruise Missile Submarines of the Cold War* Edward Hampshire, 2018-07-26. A fascinating expert history of the Soviet Union's formidable cruise missile submarines designed to destroy American sea power with impunity. *Soviet Submarine Operations in Swedish Waters* Milton Leitenberg, 1987-09-09. Milton Leitenberg has done us a great service. His balanced and comprehensive reconstruction of the history of Soviet submarine operations in Swedish waters will benefit all students of Soviet policy and practice in Northern Europe. The accompanying discussions of the domestic and international political contexts within which those submarine operations were perceived, responded to and reported on, doubles the value of the work. The full Soviet military rationale for those operations may remain somewhat elusive but Leitenberg has clearly provided us with a cogent description of their political consequences. Robert G. Weinland, Consultant, Washington D.C. The book first presents a comprehensive account of the overall incidence of violations, not only in Sweden but in other countries as well, between 1970 and 1987. The author then shows that the provisional, more exploratory stages of the operations in Sweden apparently began well before 1980 and have continued despite the Soviet Union's public campaign for a Nordic Nuclear Weapon Free Zone. An analysis of the incursions is given next, including a look at Sweden's response to a problem it may not have anticipated when its own preconceptions and the norms of international behavior were clearly contradicted by reality. Also discussed are the motives behind the Soviet submarine operations and various

provocation theories **Bulletin of the Atomic Scientists** ,1987-09 Fire at Sea Dmitriï Andreevich Romanov,2006-03-31 The divisive incident that anticipated the Kursk disaster in August 2000 Soviet Russia Pictorial ,1921 **Red Star Rogue** Kenneth Sewell,Clint Richmond,2006-09-26 The Hunt for Red October meets Blind Man s Bluff in this chilling true story of a rogue Soviet submarine that sank while trying to provoke a war between the U S and China

Soviet Intelligence and Security Services: 1964-70 Library of Congress. Congressional Research Service,1972

Strategic Missile Submarines and International Security Tom Stefanick,1989 **The New Russia** ,1920 This publication includes the continuation of Bulletins of the Russian liberation committee under the heading Facts and documents The Commonwealth ,1962 K-19 Peter A. Huchthausen,2002 Tells the real story of a Russian submarine s narrowly averted nuclear meltdown at the height of the cold war Companion volume to the feature film Soviet Oceans Development ,1976

Brassey's Naval Annual ,1929
