Developing Early Maths Skills Outdoors Marianne Sargent, 2020-01-09 *Developing Early Maths Skills Outdoors* provides practitioners with practical planning for how to develop and enhance the outdoor area to facilitate mathematical learning. It includes up to 80 activities to embed each learning experience into daily provision with dedicated plans to develop specific skills and aspects of mathematics. The activities throughout the book are low cost and easy to set up, aiming to reassure practitioners and give them the confidence to plan more mathematical learning experiences outdoors. This is further supported with planning guidance and resource ideas as well as advice on observation and assessment, including suggestions for how to reduce the paperwork burden and a useful observation template. The book is divided into sections that represent the different aspects of mathematics and includes an introduction to each aspect explaining why it is important and outlining the fundamental skills and concepts that underpin it. Ideas for adult-led and adult-initiated activities that aim to develop children's early mathematical knowledge, skills, and understanding are suggested, along with suggestions for how to enhance continuous outdoor provision so that it promotes independent investigation, fostering creative and critical thinking. Pointers and tips about teaching mathematics in the early years, ideas for how to involve parents and carers, and links to all four British early years curriculum frameworks.

Ghosts of the Farm Nicola Chester, 2025-09-30 From the Wainwright Nature Prize Highly Commended author Nicola Chester, a rural narrative between two women in two different eras who both wanted to become farmers. Nicola Chester will come to be seen as a Nan Shepherd of our time. Nick Acheson, author of *The Meaning of Geese*. This is the story of Miss White, a woman who lived in the author's village 80 years ago, a pioneer who realised her ambition to become a farmer during the Second World War and how she worked to become accepted within this community. Nicola Chester too dreamed of becoming a farmer, but working with horses was the only path open to her. Was it easier for women to become farmers in the 1940s than it is now? Moving between Nicola's own attempts to work outdoors and Miss White's desire to farm a generation earlier, Nicola explores the parallels between their lives and the differences. Miss White buys a derelict farm and begins to renovate and modernize it. As ghost barn owls flit between these two worlds, Nicola draws connections with farming and rural life in both times, from the role of women in rural communities in the modern day to Miss White's experience in the 1940s. And how those farming modernizations have left the modern day with both a denuded landscape and farming community and a disconnect from nature. Increasingly, Nicola's research into past and present interlinks and illuminates her own battles to raise awareness of rural communities, outdoor work, and the ongoing loss of farmland birds that were so familiar to Miss White. An absolutely fascinating insight into women and farming. Nicola Chester really knows how to bring the past alive. Claire Fuller, author of *The Memory of Animals*.
