The Deerfield Reader:

The Deerfield Reader G. Alan Fraker (ed), Heise, Karinne T., joint author, Heise, Thomas A., joint author, 1996

The John McPhee Reader John McPhee, 2011-04-01 The John McPhee Reader first published in 1976 is comprised of selections from the author's first twelve books. In 1965 John McPhee published his first book *A Sense of Where You Are*; a decade later he had published eleven others. His fertility, his precision and grace as a stylist, his wit and uncanny brilliance in choosing subject matter, his crack storytelling skills have made him into one of our best writers, a journalist whom L. E. Sissman ranked with Liebling and Mencken, who Geoffrey Wolff said is bringing his work to levels that have no measurable limit, who has been called a master craftsman so many times that it is pointless to number them.

[The Reader](#), 1906 *A History of the Book in America* Robert A. Gross, Mary Kelley, David D. Hall, 2010-07-15 Volume Two of *A History of the Book in America* documents the development of a distinctive culture of print in the new American republic. Between 1790 and 1840 printing and publishing expanded and literate publics provided a ready market for novels, almanacs, newspapers, tracts, and periodicals. Government, business, and reform drove the dissemination of print. Through laws and subsidies, state and federal authorities promoted an informed citizenry. Entrepreneurs responded to rising demand by investing in new technologies and altering the conduct of publishing. Voluntary societies launched libraries, lyceums, and schools and relied on print to spread religion, redeem morals, and advance benevolent goals. Out of all this ferment emerged new and diverse communities of citizens linked together in a decentralized print culture where citizenship meant literacy and print meant power. Yet in a diverse and far-flung nation regional differences persisted and older forms of oral and handwritten communication offered alternatives to print. The early republic was a world of mixed media.

Reading is one of mankind's delights and a main source of information. The approach to a reading lesson must focus the pupil's attention upon the central thought to find in the thought an expression of her needs, desires, and interests. New ideas or reorganization of familiar ideas form the basis of informational reading, and these readers take advantage of the pupil's curiosity and the impetus to share observations. Word work in the form of vocabulary all must learn augmented by a complete vocabulary appropriate to strong learners is basic to these readers. Word recognition is enhanced by context, relation, repetition, and phonic drills. Ideas for expressive reading and varied activities are also given.
