**The Right to Difference** Nicole Coleman, 2021-10-14 *The Right to Difference* examines novels that depict human rights violations in order to explore causes of intergroup violence within diverse societies using Germany as a test case In these texts the book shows that an exaggeration of difference between minority and majority groups leads to violence Germany has become increasingly diverse over the past decades due to skilled labor migration and refugee movements In light of this diversity this book s approach transcends a divide between migrant and post migrant German literature on the one hand and a national literature on the other hand Addressing competing definitions of national identity as well as the contest between cultural homogeneity and diversity the author redefines the term intercultural literature It becomes not a synonym for authors who do not belong to a national literature such as migrant writers but a way of reading literature with an intercultural lens This book builds a theory of intercultural literature that focuses on the multifaceted nature of identity in which ethnicity represents only one of many characteristics defining individuals To develop intercultural competence one needs to adopt a complex image of individuals that allows for commonalities and differences by complicating the notion of sharp contrasts between groups Revealing the affective allegiances formed around other characteristics gender profession personal motivations relationships and more allows for similarities that grouping into large homogeneous and seemingly exclusive entities conceals Eight novels analyzed in this book remember and reveal human rights violations such as genocide internment and torture violent expulsion the reasons for fleeing a country dangerous flight routes and the difficulty of settling in a new country Some of these novels allow for affective identification with diverse characters and cast the protagonists as individuals with plural perspectives and identities rather than monolithic members of one large national or ethnic group whereas others emphasize the commonalities of all people Ultimately the author makes the case for German Studies to contribute to an antiracist approach to diversity by redefining what it means to be German and establishing difference as a fundamental human right

the changing political climate Obama's presidency also spurred a cultural shift notably in music television and film In *Movies in the Age of Obama The Era of Post Racial and Neo Racist Cinema* David Garrett Izzo presents a varied collection of essays that examine films produced since the 2008 election The contributors to these essays comment on a number of films in which race and otherness are pivotal elements In addition to discussing such films as *Beasts of the Southern Wild* *Black Dynamite* *The Blind Side* *The Butler* *Django Unchained* *The Help* and *Invictus* this collection also includes essays that probe racial elements in *The Great Gatsby* *The Hunger Games* and *The Mist* The volume concludes with several essays that examine the 2013 Academy Award winner for best picture *12 Years a Slave* Though Obama's election may have been the main impetus for a resurgence of black films this development is a bit more complicated Moviemakers have long responded to the changing times so it is inevitable that the Obama presidency would spark an increase in films that comment either subtly or overtly on the current cultural climate By looking at the issue these films address *Movies in the Age of Obama* will be of value to film scholars of course but also to those interested in other disciplines including history politics and cultural studies

*The Catechism Explained* Francis Spirago, 1899 This Catechism is divided into three parts The first part treats of faith the second of morals the third of the means of grace In the first part Our Lord appears in His character of Teacher in the second in His character of King and in the third in His character of High Priest And since this Catechism proposes as its primary object to answer the question for what purpose are we here upon earth thereby emphasizing and giving prominence to man's high calling and destiny it is especially suited to the present day when the pursuit of material interests self indulgence and pleasure engrosses the attention of so many This Catechism is in fact nothing more nor less than an abstract of Our Lord's teaching and may be called a guide book for the Christian on the road to heaven Preface
