movements described in this book arise from the modern art of movement known as eurhythmy Greek good movement which came into the world in 1912 These sacred gestures when practiced with the words gifted to humanity by the incarnated Logos two thousand years ago lead us back to our connection with the fullness of creation and toward the goal of developing the body of immortality the resurrection body In 2012 we celebrate the one hundredth anniversary of the birth of eurhythmy This book invites us to partake of the richness of the sacred through life enhancing movement and gesture as a path to reconnect with the cosmic formative forces that sound the call of resurrection The wealth of material included in this book educates the soul toward awaking to a conscious understanding of humanity's divine heritage and true calling The exercises in this work provide a training that ennobles and refines the qualities of the human soul By awaking the soul gradually learns to respond to the call of the World Soul that invites us to partake of divine wisdom and to participate through right action in creation's unfolding toward the ultimate goal resurrection

Luminous Heart of Inner Radiance Rachel Olds,2011 Togonal is an ancient spiritual path a dynamic visionary process arising from your heart and the very basis of all manifestation The rainbow colored visions of Togonal are primordial they are the first and most radiant aspect of manifestation closest to essence They are a doorway to direct perception of the luminous union of essence and radiance but they are not separate from the natural world They arise from the same source and for the same reason to provide an avenue for return to essence there is a sacred intent a great compassion woven throughout the very fabric of being The visions of Togonal mature in a way that is both specific and beautiful Robert and Rachel Olds kept sketchbooks of the Togonal visions during their nine year retreat together and they share their drawings and the perspective that the ripening of Togonal brings to show the correlation between the visions of inner radiance and the vision that is this life The images in the visions are not esoteric or secret they are all around us in the natural world from concentric rings on the surface of a pond to the patterns of the background radiation of the universe itself The visions of Togonal and the natural world are equally sacred Now more than ever when our Earth is in peril due to non recognition of this inherent holiness it is important to acknowledge and reaffirm the sacredness of this entire arising vision we call life 145 color illustrations
