Peirce's Approach to the Self Vincent Michael Colapietro, 1988-12-31 Based on a careful study of his unpublished manuscripts as well as his published work this book explores Peirce's general theory of signs and the way in which Peirce himself used this theory to understand subjectivity Peirce's views are presented not only in reference to important historical James Saussure and contemporary Eco Kristeva figures but also in reference to some of the central controversies regarding signs Colapietro adopts as a strategy of interpretation Peirce's own view that ideas become clarified only in the course of debate **The Self as a Sign, the World, and the Other** Susan Petrilli, 2017-07-28 Ostentation of the Subject is a practice that is asserting itself ever more in today's world Consequently criticism by philosophers psychologists sociologists and anthropologists has been to little effect considering that they are not immune to such practices themselves The question of subjectivity concerns the close and the distant the self and the other the other from self and the other of self It is thus connected to the question of the sign It calls for a semiotic approach because the self is itself a sign its very own relation with itself is a relation among signs This book commits to developing a critique of subjectivity in terms of the material that the self is made of that is the material of signs Susan Petrilli highlights the scholarship of Charles Peirce Mikhail Bakhtin Roland Barthes Mary Boole Jacques Derrida Michael Foucault Emmanuel Levinas Claude Levi Strauss Maurice Merleau Ponty Charles Morris Thomas Sebeok Thomas Szasz and Victoria Welby Included are American and European theories and theorists evidencing the relationships interconnecting American Italian French and German scholarship Petrilli covers topics from identity issues that are part of semiotic views to the corporeal self as well as responsibility reason and freedom Her book should be read by philosophers semioticians and other social scientists *Semiotics* Semiotic Society of America. Meeting, 1989 **Semiotics of Cities, Selves, and Cultures** Milton B. Singer, 1991 The Semiotic Bridge Irmengard Rauch, Gerald F. Carr, 1989 **The Negotiated Self** Anne Malena, 1999 Using a multifaceted approach this study explores questions of identity in novels by Dany B. Bel Gisle Maryse Condé and Emile Ollivier As signs narrators and characters are connected to each other dialogically and produce multilayered narratives that problematize the concept of a cohesive and static collective identity In revealing identity to be a constantly fluctuating semiotic process the study shows that Caribbean Francophone narrative is creating a new literary space where the dialogic underpinnings of the self are called upon to express the difficulties the heterogeneity and the opacity of meaning associated with any definition of a cultural or national

identity New Approaches to Semiotics and the Human Sciences Roberta Kevelson, William Pencak, J. Ralph Lindgren, 1998 Little links the 14 essays beyond an iconoclastic attitude toward the mainstream of a branch of thinking most people have never heard of and a leaning towards legal matters Among the topics are constitutive theory what judges and juries do class conflict in white America justice as a iconophobic icon word play and the challenge of sense conceptual iconicity and grammatical rules and the cognitive self and the virtual self Appended are a conversation with Kevelson and a list of her professional achievements Annotation copyrighted by Book News Inc Portland OR **Caged in Our Own Signs** Kyong Liong Kim, 1996 Caged in Our Own Signs A Book About Semiotics is a primer of semiotics intended for general readers as well as communication majors The first five chapters introduce the basic constructs models assumptions frameworks for semiotic thinking and other elements that underpin contemporary semiotics This volume also provides the reader with semiotic methodology to analyze issues of postmodernism of text semiotics and of mass cultural semiotics This book is written in such a way that the reader may easily apply the semiotic knowledge to the everyday conversation and discourse

Consumer Behavior: Possessions, brands and the self Margaret K. Hogg, 2006 Contains classic and contemporary writings including some of the most provocative and influential contributions to the field from across the social sciences thus representing the increasing interdisciplinary richness of research in consumer behavior Peirce, Semiotics, and Psychoanalysis John P. Muller, 2000 The ideas of Peirce illuminate matters at the center of contemporary psychoanalysis the coherence of the human subject the role of language in the generation of meaning the question of truth the nature of intersubjectivity the structure of dialogue the ongoing obscurity of unconscious processes the ethical link between speech and action the relation of the individual to the community from the Preface The slow and steady rise of the reputation of Charles Sanders Peirce 1839 1914 has coincided with a greater appreciation for his work in semiotics Once thought to be primarily a logician and pragmatist he is now internationally honored as a pioneer theorist about how minds think with signs icons indexes and symbols Peirce s ideas about semiotics provide exactly the kind of representational theory that Freud s system lacks proposing a thorough recasting of psychoanalytic thinking which rejoins idea and affect self and other thought and action meaning and matter inside and outside The essays in this collection provide an introduction to Peirce and explore different implications of Peirce s theory of representation for psychoanalytic practice as well as for philosophical reflection

An Introduction to C.S. Peirce Robert S. Corrington, 1993 Corrington achieves the most judicious presentation of Peirce s philosophy made so far an ideal introduction for the beginning student and balancer for Peirce sophisticates John Deely Loras College **Nature's Self** Robert S. Corrington, 1996 The drama of the unfolding of the spirit Corrington argues is one of the most powerful struggles within the human process The spirit is in and of nature and can never lift the self outside of nature For Corrington s ecstatic naturalism there is no realm of the supernatural only dimensions and orders within nature *The Semiotics of Fate, Death, and the Soul in Germanic Culture* Prisca Augustyn, 2002 The ninth century

Old Saxon Heliand gospel yields seminal sets of words for fate and the self that paint the cultural background into which Christianity was introduced. The Heliand contains robust mythopoetic links to an Indo-European tradition which were conducive to the synthesis of ancient mythological scenarios with the dogma of the immortal soul. Peirce's semiotic informs the linguistic analysis and promotes the ethnophilosophical description of the formation of belief while the linguistic data inform the cultural analysis and substantiate the different levels of description in the semiotic paradigm. Through the combination of historical linguistic analysis and semiotic analysis the development of fundamental beliefs is described and a continuity is established between early Germanic beliefs and modern beliefs, advancing the understanding and description of intellectual history and the evolution of meaning.

Consumer Behavior II: Possessions, brands and the self Margaret K. Hogg, 2006

Performing the Modern Self Karen Jürs-Munby, 2000

Revolutions, Institutions, Law Joel Levin, Roberta Kevelson, 1998

Revolutions Institutions Law brings together scholars representing a wide range of academic disciplines to examine and discuss the role of law as mediator between social revolutions of all kinds and ideally stable social institutions. Semiotics is the point of view and referent theory that binds contributors into common focus on this triadic dynamic interplay. From this perspective law as mediator is transformed no less than the forces of revolution on the one hand and the forces of institutional stability on the other hand.
