Making Animals Public Professor Gay Hawkins, Dr Ben Dibley, 2024-06-01 Making Animals Public television animality and political engagement focuses on the proliferation of animal content on television and how this has transformed how animals are known and encountered generating unique modes of televisual animality The book examines the multiplicity of public realities and knowledges that animals on TV have constituted from scientific objectivity to the unique Australian environment to controversial victims of gross exploitation Just as television has made animals public in very particular ways it has also made new publics that have learnt to be affected by them Thanks to extraordinary access to the ABC's Natural History and general archives the authors are able to investigate the dynamic relation between making animals public and making publics over time
