Wilderness Waterways:

Paddling the Everglades Wilderness Waterway Holly Genzen, Anne Sullivan, 2011-08-09 For anyone who has ever dreamed of truly experiencing America's unique Everglades National Park there is only one way by canoe or kayak. And *Paddling the Everglades Wilderness Waterway* is the all-in-one guide for safe adventure on this spectacular 99-mile route. No time for such days-long expeditions. No matter. Authors Holly Genzen and Anne McCrary Sullivan entice with their favorite day and overnight trips from various Everglades departure points. Having spent years exploring this maritime labyrinth, the authors now share their intimate knowledge of historic Everglades rivers and bays, the endless horizon of its Gulf Coast, the eerie beauty of its mangrove forests, and the secrets of ancient tribes and early American pioneers who left their distinctive traces. Descriptions of wildlife, including birds, alligators, and the details of exquisite flora that flourishes here. But Genzen and Sullivan do not skimp on practicalities nor on threats to this environment. Safety, weather, insects, food, fresh water, and camping on rustic chickee platforms stilted above the rivers all earn many pages here. As does what lies in store for the timeless but fragile Everglades ecology. This book is a treasure trove for all paddlers, from novices to champions.

Wilderness Rivers of America Michael Jenkinson, 1981 This book on our continent's wild, free-flowing waters is an adventure story, a lively travelogue, a paean to nature, and a colorful history with 200 color photos and maps. **Wild Rivers System** United States. Congress. Senate. Committee on Interior and Insular Affairs, 1965 **A Guide to the Wilderness Waterway of the Everglades National Park** William G. Truesdell, 1985-01-01 The National Park Service has marked a 100-mile inside-water route from Everglades City on the Gulf of Mexico to Flamingo on Florida Bay. This boat trail winds its way through creeks, rivers, and open bays in the mangrove wilderness of Everglades National Park. The maps in this guide are based upon aerial photographs. The maps show the markers and routes, campsites, park boundaries, ranger stations, certain rivers, creeks, bays, lakes, and islands, and some of the vegetation types along the route. Depth in and near the channels are also indicated. The accompanying text gives pertinent and helpful information for both the experienced boater and the uninitiated newcomer to this famous remote area. Price 20.00. *Wilderness Waterways* Ronald M. Environmental Modeling with Stakeholders Steven Gray, Michael Paolisso, Rebecca Jordan, Stefan Gray, 2016-12-16 This volume brings together in a central text chapters written by leading scholars working at the intersection of modeling the natural and social sciences and public participation. This book presents the current state of knowledge regarding the theory and practice of engaging stakeholders in environmental modeling for decision making and includes basic theoretical considerations, an overview of methods and tools available, and case study examples of these principles and methods in practice. Although there has been a significant increase in research and development regarding participatory modeling, a unifying text that provides an overview of the different methodologies available to scholars and a systematic review of case

study applications has been largely unavailable This edited volume seeks to address a gap in the literature and provide a primer that addresses the growing demand to adopt and apply a range of modeling methods that includes the public in environmental assessment and management The book is divided into two main sections The first part of the book covers basic considerations for including stakeholders in the modeling process and its intersection with the theory and practice of public participation in environmental decision making The second part of the book is devoted to specific applications and products of the various methods available through case study examination This second part of the book also provides insight from several international experts currently working in the field about their approaches types of interactions with stakeholders models produced and the challenges they perceived based on their practical experiences
