Supercharged Mercedes:

Supercharged Mercedes In Detail James Taylor,2014-01-01 Among the rarest and most exciting classic cars are the supercharged Mercedes cars of the 1920s and 1930s exemplified by the fire breathing S SS SSK and SSKL models with their supercharged 7 litre engines and their exceedingly glamorous though softer and less stark 500K and 540K cars which succeeded them in the mid 1930s All of the models going back to 1923 and on to the construction of the last mighty 770K in 1942 and the long pioneering history of supercharging by Mercedes are described here including the cars designed by Ferdinand Porsche between 1924 and 1928 and the road racing exploits of star drivers like Rudolf Carracciola With 100 color photographs of surviving examples and 150 black and white pictures from the archives Supercharged Mercedes in Detail describes all about a remarkable family of motor cars rarely ever seen yet universally admired *A Complete Guide to Street Supercharging* Pat Ganahl,2009 Street Supercharging from industry veteran Pat Ganahl has been the guidebook for supercharging fans for years As time and technology march on updates are required to keep things current and that s exactly what this all new all color edition of street supercharging does Covered are blower basics blower background and history a tutorial on how blowers work information on used superchargers and their practicality chapters on the different styles of superchargers like the traditional roots style blowers vs the emerging centrifugal styles blower installation how to build your engine to handle the demands of a blower application and even information on tweaking factory blower systems *The Devil's Mercedes* Robert Klara,2017-03-07 Critically acclaimed author Robert Klara s *The Devil s Mercedes* chases down one of the most improbable stories of the postwar era the national drama that erupted when Hitler s armored limousine surfaced in the US In 1938 Mercedes Benz began production of the largest most luxurious limousine in the world A machine of frightening power and sinister beauty the Grosser 770K Model 150 Offener Tourenwagen was 20 feet long seven feet wide and tipped the scales at 5 tons Its supercharged 230 horsepower engine propelled the beast to speeds over 100 m p h while its occupants reclined on glove leather seats stuffed with goose down Armor plated and equipped with hidden compartments for Luger pistols the 770K was a sumptuous monster with a monstrous patron Adolph Hitler and the Nazi party Deployed mainly for propaganda purposes before the war the hand built limousines in which Hitler rode standing in the front seat motored through elaborate rallies and appeared in countless newsreels swiftly becoming the Nazi party s most durable symbol of wealth and power Had Hitler not so thoroughly dominated the scene with his own megalomania his opulent limousine could easily have eclipsed him Most of the 770Ks didn t make it out of the rubble of World War II But several of them did And two of them found their way secretly and separately to the United States In *The Devil s Mercedes* author Robert Klara uncovers the forgotten story of how Americans responded to these rolling relics of fascism on their soil The limousines made headlines drew crowds made fortunes and ruined lives What never became public was how both of the cars would ultimately become tangled in a web of confusion mania and opportunism fully entwined in a story of mistaken identity

Nobody knew that the limousine touted as Hitler's had in fact never belonged to him while the Mercedes shrugged off as an ordinary staff car one later abandoned in a warehouse and sold off as government surplus turned out to be none other than Hitler's personal automobile. It would take 40 years, a cast of carnie and millionaires, the United States Army and the sleuthing efforts of an obscure Canadian librarian to bring the entire truth to light. As he recounts this remarkable drama, Klara probes the meaning of these haunting hulks and their power to attract, excite and disgust. The limousine's appearance collided with an American populace celebrating a victory even as it sought to stay a step ahead of the war's ghosts. Ultimately, The Devil's Mercedes isn't only the story of a rare and notorious car but what that car taught postwar America about itself.

Hitler's Motorcars John Starkey, 2023-09-30. As well as providing photographs of Hitler's cars and the men who became his chauffeur, John Starkey lists the technical specifications of those cars and describes many of the journeys undertaken by the German leader over the course of two dramatic decades. Many are the photographs of Hitler standing proudly in the passenger seat of a midnight blue Mercedes arm outstretched in his famous salute to the adoring German crowds. Hitler loved cars and loved to be seen in and next to the special automobiles he purchased or was presented with through friends and Nazi Party funds. His first car was a 1920 green Selve 8/30 purchased in 1922 which was soon disposed of in favor of a Daimler-built Mercedes 15/70/100 and from that moment on every car in which Hitler was chauffeured around the Third Reich and occupied countries would be a Mercedes. Indeed, even while in Landsberg prison following his failed putsch in 1923, he was writing to a Mercedes-Benz car salesman in Munich about his next car concerning the merits of the Benz 11/40 versus the larger 16/50. It was a grey 11/40 in which Hitler was driven away from Landsberg on his release in 1924. It was in his next car, a super-charged Mercedes-Benz 15/70/100 that Hitler was involved in an accident with a large truck in March 1930. The truck was completely wrecked while the large Mercedes suffered only minor damage. This prompted Hitler to remark, "It was then I decided to use only a Mercedes for the rest of my life." From 1930 onwards, Hitler was driven around in a Mercedes-Benz 770, also known as the Grosser Mercedes. Only 205 of these huge luxury cars were manufactured, with many of those being used by top-ranking Nazis. Such was Hitler's interest in cars, he arranged state sponsorship for Mercedes and Porsche Auto Union to participate in Grand Prix racing today's F1. So strong was the resulting financial support that German teams swept all before them between 1935 and 1939. Security was always a great concern of Hitler and his entourage, and his 770 was protected with bullet-proof windows and steel armor plate built into all metal work. Wartime brought increased security fears, resulting in another Mercedes entering the German leader's car collection. This was the heavily armored six-wheel G4, the first off-road Mercedes in which Hitler could safely parade through the streets of conquered lands. As well as providing photographs of Hitler's cars and the men who became his chauffeur, John Starkey lists the technical specifications of those cars and describes many of the journeys undertaken by the German leader over the course of two dramatic decades.
