surrounding the odd alliance between Israel and post war democratic Germany Thorough archival research shows how German policymakers often had disingenuous cynical or even partly antisemitic motivations seeking to whitewash their Nazi past by supporting the new Israeli state This is the true context of West Germany s crucial backing of Israel in the 1950s and 60s German economic and military support greatly contributed to Israel s early consolidation and eventual regional hegemony This initial alliance has affected Germany s role in the Israeli Palestinian conflict to the present day Marwecki reassesses German foreign policymaking and identity shaping and raises difficult questions about German responsibility after the Holocaust exploring the many ways in which the genocide of European Jews and the dispossession of the Palestinians have become tragically intertwined in the Middle East s international politics This long overdue investigation sheds new light on a major episode in the history of the modern Middle East
