The 4th International Conference on Low Cycle Fatigue and Elasto Plastic Behaviour of Materials was held from 7 11
September 1998 in Garmisch Partenkirchen Germany In response to a call for papers nearly 200 extended abstracts from 32
countries were submitted to the organizing committee These papers were presented at the conference as invited lectures or
short contributions and as oral or poster presentation All the papers were presented in poster form in extended poster
sessions a peculiarity of the LCF Conferences which allows an intense thorough discussion of all contributions Each chapter
provides a comprehensive overview of a materials class or a given subject Many contributions could have been included in
two or even three chapters and so in order to give a better overview of the content the reader will find a subject index a
material index and an author index in the back of the book *Intermetallic and Ceramic Coatings* Naredra B. Dahotre, T.S.
Sudarshan, 1999-02-16 Detailing the properties of specific coatings problems related to adhesion onto various substrates and
potential commercial applications this text surveys up to date techniques involved in preparing intermetallic and ceramic
coatings The book features a list of selected applications covering the latest industrially available practices Proceedings
