helping prevent a large number of diseases These diseases can either be common diseases or may be chronic diseases to which mankind has been subject all over the World But as long as you have onions on hand why do you need to suffer This book is going to tell you all about the number of diseases which can be cured through onions and onion juice It is also going to tell you all about why it is necessary for you to have lots of onions in your daily diet especially raw You are also going to learn that onions since ancient times have been used to prevent infections contagious diseases chronic ailments and other useful and beneficial information about that common vegetable herb the onion In ancient times onions were always eaten fresh plucked from the ground and eaten within one hour of their harvesting It was believed that the potency of the onion would keep for just one hour after it had been harvested and the longer the onion was stored outside the ground the lesser you would benefit from its naturally powerful curative properties When we think of all those onions being stored away for months before they are sent to the market or exported to other parts of the World one wonders about how much of their natural goodness has been dissipated into the fresh air But even so when we eat the onions possibly three months after they have been harvested we find them strong pungent and we reassure ourselves that all right these onions are full of flavor and natural goodness
