**The Feuerstein Method** Refael S. Feuerstein,2024-04-24 This book is designed to help parents and professionals respond to the behavioral potential of children and adults diagnosed with autistic spectrum disorder ASD through the application of the Feuerstein method an approach that brings an alternative and innovative treatment modality that uncovers and enhances the learning potential that traditional diagnoses and treatment methods often overlook or discourage The method is based on Reuven Feuerstein s formulations of cognitive modifiability and has been implemented successfully and confirmed by both research results and the experiences of teachers and parents This book is a valued resource for treatment including descriptions of the basic concepts of the method and their application to the assessment and treatment of those functioning within the spectrum Each chapter is specifically written by members of the Feuerstein Institute clinical and research team The chapters are interspersed with case studies that illustrate the principles and practices described therein and is written in an accessible and clear language for practitioners and parents Presenting a new and optimistic paradigm in defining and responding to ASD this is an invaluable resource for parents and practitioners concerned about meeting the needs of the ASD individual and acquiring insights and techniques for seeking or implementing treatment

**Talking Mathematics in School** Magdalene Lampert,Merrie L. Blunk,1998-10-13 The teaching and learning of mathematics in K 12 classrooms is changing New curricula and methods engage learners in working on real problems An essential feature of this work involves teacher and students in talking mathematics How can students learn to do this kind of talking What can they learn from doing it This book addresses these questions by looking at the processes of formulating problems interpreting contexts in which problems arise and arguing about the reasonableness of proposed solutions The studies in this volume seek to retain the complexity of classroom practice rather than looking at it through a particular academic lens

**The Christian Philosophy of Education Explained** Stephen C. Perks,1992

**Marriage** Pastor Jeremy Markle,2018-03-01 The Word of God boldly declares that if the foundations be destroyed what can the righteous do Ps 11 3 It has long been understood and in virtually every culture that the family is the foundation upon which every society is built As the family breaks down so does society Today perhaps as never before God s plan for marriage and the family are under vicious attack not just in America but around the world But even in the darkness of a sin soaked and morally perverse culture there is light That blessed light offers hope to the sinner and the society in which he lives for that light comes from the Word of God the Bible There we are told that the Lord Jesus Christ is the true Light which lighteth every man that cometh into the world We are further told that the light shineth in darkness John 1 5 9 In his book **Marriage A Covenant Before God** Pastor Jeremy Markle presents in a beautiful yet practical way the Biblical Light that offers real hope for a happy

fulfilling Christian marriage He basically presents in written form a complete marriage counseling class Sad to say but there are numbers of couples who marry with little or no marriage counseling from their pastor In this book couples like that will now have access to a biblical formula for a happy Christian marriage Pastor Markle deals with the intimacy of marriage in a very discreet and delicate manner One of the things that makes this book unique is the set of serious thought provoking questions he asks at the end of each chapter with a place for the reader to write an answer I highly recommend this book to every fundamental pastor for use as a marriage counseling textbook I urge every young person contemplating marriage to prayerfully and carefully read the advice that is presented in this much needed work Evangelist Ken Lynch Taylors SC 2014

**Covenant Lord and Cultic Boundary** Michael Beck,2023-02-02 The Reformed Two Kingdom project has generated a great deal of literature However this literature is often characterized by inflamed rhetoric Further though it is standard fare to assume that Kline was the architect of the project in reality there has been very little scholarly examination of this point In response Kline s system is analyzed through the means of a dialectical discourse with three differing models within the Reformed tradition the Theonomist Perspectivalist and Dooyeweerdian schools Through this means the study keeps away from surface level polemics and instead directs readers to the critically important substructural level of current discussions While clarifying some of the key differences between Kline and his interlocutors often overlooked points of nuance are also highlighted These points are shown to be important in that they present the potential to lessen frustration and impasse in the ongoing dialogue

**Adam's Dust and Adam's Glory in the Hodayot and the Letters of Paul** Nicholas Meyer,2016-06-27 In Adam s Dust and Adam s Glory Nicholas A Meyer challenges the scholarly reconstruction of a traditional theological framework of creation fall and restoration in order to comprehend the pessimistic anthropologies of the Hodayot and the letters of Paul Meyer argues that too little notice has been paid to the fact that this literature problematizes ordinary humanity by way of original humanity its sexuality its earthly physicality its spiritual moral frailty and that these texts look not for the restoration of human nature as determined in creation but rather for its transformation Setting aside the traditional threefold framework the author offers an innovative and comprehensive reading of the use of traditions of anthropogony including the glory of Adam and the image of God in this literature
